Author Corey Ford writes the classic and moving story of naturalist Georg Wilhelm Steller, who served on the 1741-42 Russian Alaska expedition with explorer Vitus Bering. Steller was one of Europe's foremost naturalists and the first to document the unique wildlife of the Alaskan coast. In the course of the voyage, Steller made his valuable discoveries and suffered, along with Bering and the crew of the ill-fated brig *St. Peter*, some of the most grueling experiences in the history of Arctic exploration. First published in 1966, *Where the Sea Breaks Its Back* was hailed as "among this country's greatest outdoor writing" by *Field & Stream* magazine, and today continues to enchant and enlighten the new generations of readers about this amazing and yet tragic expedition, and Georg Steller's significant discoveries as an early naturalist.

The ideal roadmap for defense lawyers and prosecutors, John M. Castellano has built on the fine works of the original authors of this book, James A. Adams and Daniel D. Blinka who appreciate the succinct analysis necessary to canvass the often tangled landscape of Fourth Amendment law. Their pragmatic approach has created a balanced, sound and comprehensive one-volume survey of arrest, search and seizure issues. The Third edition now features all decisions by the Supreme Court Fourth Amendment cases through June 2015 as well as significant and helpful circuit court decisions on a variety of topics. It includes a number of other new, expanded, or refined sections as well which include application for orders to intercept; bodily intrusions, emergency searches, and workplace searches.
