Accelerated learning can be attained through a process called meta-learning; or learning how to learn. We as humans seem to think that we have a very limited brain, with a limited capacity to store new knowledge — we are under the notion that, in order to retain something new, we must let go of something old.

This book offers nine principles for brain-based approaches to accelerating learning, improving motivation and raising achievement. It offers the reader a coherent structure and describes: guaranteed ways to motivate learners esteem-building tools for schools, teachers and parents how to access and teach to different types of intelligence 17 different ways in which schools can make Accelerated ...

“STEMscopes is great. Until we began using STEMscopes, students didn’t understand that science is everywhere. In kindergarten through fourth grade, they thought science was a book. They didn’t see sci-

ence as being connected to the real world, so they thought that when they left school they'd never use it again.

This incredible teacher INSET focuses on accelerated learning techniques for use in the classroom. The format of the day allows teaching staff to explore different approaches to teaching and learning and creates opportunities to share best practice

and to experiment with new techniques.

Accelerated learning is a collective term for a series of practical approaches to learning. In many ways it is simply an explanation of the way in which you learn, the logic being that if you understand how information gets into your head you will be able to speed up individual parts of that process and so learn faster.
