We bring into full light some excerpts on musical subjects which were until now scattered throughout the most famous scientific texts. The main scientific and musical cultures outside of Europe are also taken into consideration. The first and most important property to underline in the scientific texts examined here is the language they are written in. This means that our multicultural history of the sciences necessarily also becomes a review of the various dominant languages used in the different historical contexts. In this volume, the history of the development of the sciences is told as it happened in real contexts, not in an alienated ideal world.

This collection from Cellina von Mannstein finds the beauty in flawed and funky situations. Her free-wheeling images celebrate decadent excess as well as the aesthetics of disorder and confusion. Before taking up fine art and fashion photography, von Mannstein worked in film. Her compositions hold your attention and are compellingly real. For her, telling a story -- not just creating an image -- is what it's all about. These original works have the atmosphere of dark fairytales with dream-like juxtapositions and hints of seediness.

Lectures given Aug. 31-Sept. 11, 1998 at the 1998 Summer School of the German Society of Linguistics, Mainz, Ger.

Inspired by far-away places in Asia, Africa and South America, people create small oases in private homes to remind them of exotic cultures. Thus ethno design has become a new trend in interior design: tropical wood furniture, bright colors like orange and red, ethno art and accessoires such as african sculptures, were rediscovered and merged with modern interiors. Exotic elements such as buddha statues, palmtrees and animal rugs are blended with modern architecture. Modern Ethno Design presents around 50 outstanding projects inspired by the fusion and powers of pagan rites. An index with contact information is enclosed.

della cultura materiale in età pre-industriale e le scienze applicate nella forma di saggi e studi originali; relazioni preliminari di scavo; contributi critici su libri, articoli, ritrovamenti, ecc. Vengono pubblicati sia testi in italiano che in altre lingue.

Nella valle del fiume Omo ai confini dell'Etiopia vivono sedici minoranze etniche che hanno avuto ben scarsi cambiamenti nel corso della loro storia. L'autore ha cercato di non dare solamente un carnet di viaggio, e nemmeno una mera descrizione come negli asettici rapporti etnografici, ma di prestare attenzione alle dinamiche sociali, in una prospettiva diacronica e storica, accennando alle correnti interne a quelle culture e alle incipienti critiche e trasformazioni in atto, e dunque rendendo la dimensione della complessità delle modifiche di mentalità.
