USAs historie indtil 1996

Equip your students to excel in the current AP Human Geography course and on the exam.

With the publication of his magisterial biography of John F. Kennedy, *An Unfinished Life*, Robert Dallek cemented his reputation as one of the greatest historians of our time. Now, in this epic joint biography, he offers a provocative, groundbreaking portrait of a pair of outsize leaders whose unlikely partnership dominated the world stage and changed the course of history. More than thirty years after working side-by-side in the White House, Richard Nixon and Henry Kissinger remain two of the most compelling, contradictory, and powerful men in America in the second half of the twentieth cen-

ture. While their personalities could hardly have seemed more different, they were drawn together by the same magnetic force. Both were largely self-made men, brimming with ambition, driven by their own inner demons, and often ruthless in pursuit of their goals. At the height of their power, the collaboration and rivalry between them led to a sweeping series of policies that would leave a defining mark on the Nixon presidency. Tapping into a wealth of recently declassified archives, Robert Dallek uncovers fascinating details about Nixon and Kissinger's tumultuous personal relationship and the extent to which they struggled to outdo each other in the reach for achievements in foreign affairs. Dallek also brilliantly analyzes their dealings with power brokers at home and abroad—including the nightmare of Vietnam, the unprecedented opening to China, détente with the Soviet Union, the Yom Kippur War in the Middle East, the disastrous overthrow of Allende in Chile, and growing tensions between India and Pakistan—while recognizing how both men were continually plotting to distract the American public's attention from the growing scandal of Watergate. With unprecedented detail, Dallek reveals Nixon's erratic behavior during Watergate and the extent to which Kissinger was complicit in trying to help Nixon use national security to prevent his impeachment or resignation. Illuminating, authoritative, revelatory, and utterly engrossing, *Nixon and Kissinger* provides a startling new picture of the immense power and sway these two men held in changing world history.

The ideal textbook for the AP® World History classroom, *Ways of the World* focuses on significant historical trends, themes, and developments in world history, while building AP® skills. Authors Robert Strayer and Eric Nelson provide a thoughtful and insightful commentary that helps students see the big picture, while modeling historical thinking. This edition is even more focused on the needs of AP® students, with AP® Skills Workshops, a DBQ-aligned Working with Evidence feature, and more opportunities to hone AP® skills and practice for the exam.

This hugely influential work marked a turning point in US history and culture, arguing that the nation's expansion into the Great West was directly linked to its unique spirit: a rugged individualism forged at the juncture between civilization and wilderness, which – for better or worse – lies at the heart of American identity today. Throughout history, some books have changed the world. They have transformed the way we see ourselves – and each other. They have inspired debate, dissent, war and revolution. They have enlightened, outraged, provoked and comforted. They have enriched lives – and destroyed them. Now Penguin brings you the works of the great thinkers, pioneers, radicals and visionaries whose ideas shook civilization and helped make us who we are.

John Irish, an experienced U.S. History teacher, has developed this workbook to focus on the historical thinking skills that high school students in the AP\* U.S. History course must master in order to perform well on the exam.

A one-semester or one-year course, perfect for students preparing to take the AP United States Government and Politics Exam.

Equip your students to excel in the new AP course and on the exam.

Classic Books Library presents this brand new edition of “The Federalist Papers”, a collection of separate essays and articles compiled in 1788 by Alexander Hamilton. Following the United States Declaration of Independence in 1776, the governing doctrines and policies of the States lacked cohesion. “The Federalist”, as it was previously known, was constructed by American statesman Alexan-

der Hamilton, and was intended to catalyze the ratification of the United States Constitution. Hamilton recruited fellow statesmen James Madison Jr., and John Jay to write papers for the compendium, and the three are known as some of the Founding Fathers of the United States. Alexander Hamilton (c. 1755–1804) was an American lawyer, journalist and highly influential government official. He also served as a Senior Officer in the Army between 1799-1800 and founded the Federalist Party, the system that governed the nation's finances. His contributions to the Constitution and leadership made a significant and lasting impact on the early development of the nation of the United States.

Ninety years ago, the League of Nations convened for the first time, hoping to create a safeguard against destructive, world-wide war by settling disputes through diplomacy. This book looks at how the League was conceptualized and explores the multifaceted body that emerged. This new form for diplomacy was used in ensuing years to counter territorial ambitions and restrict armaments, as well as to discuss human rights and refugee issues. The League's failure to prevent World War II, however, would lead to its dissolution and the subsequent creation of the United Nations. As we face new forms of global crisis, this timely book asks if the UN's fate could be ascertained by reading the history of its predecessor.

Illuminating, authoritative, revelatory, and utterly engrossing, *Nixon and Kissinger* provides a startling new picture of the immense power and sway these two men held in changing world history.

A Century of Dishonor A Sketch of the United States Government's Dealings with Some of the Indian Tribes American History A Survey Historical Thinking Skills A Workbook for U. S. History W. W. Norton John Irish, an experienced U.S. History teacher, has developed this workbook to focus on the historical thinking skills that high school students in the AP\* U.S. History course must master in order to perform well on the exam.

Only Yesterday An Informal History of the 1920s Open Road Media A history of roaring prosperity—and economic cataclysm: “The one account of America in the 1920s against which all others must be measured” (The Washington Post). Beginning November 11, 1918, when President Woodrow Wilson declared the end of World War I in a letter to the American public, and continuing through his defeat, Prohibition, the Big Red Scare, the rise of women’s hemlines, and the stock market crash of 1929, *Only Yesterday*, published just two years after the crash, chronicles a decade like no other. Allen, who witnessed first-

hand the events he describes, immerses you in the era of flappers, speakeasies, and early radio, making you feel like part of history as it unfolds. This bestselling, enduring account brings to life towering historical figures including J. Pierpont Morgan, Henry Ford, Sigmund Freud, Albert Einstein, Al Capone, Babe Ruth, and Jack Dempsey. Allen provides insightful, in-depth analyses of President Warren G. Harding’s oil scandal, the growth of the auto industry, the decline of the family farm, and the long bull market of the late twenties. Peppering his narrative with actual stock quotes and breaking financial news, Allen tracks the major economic trends of the decade and explores the underlying causes of the crash. From the trial of Nicola Sacco and Bartolomeo Vanzetti to the inventions, crazes, and revolutions of the day, this timeless work will continue to be savored for generations to come.

Barron's AP United States History Students preparing for the Advanced Placement U.S. History exam will welcome this revised and updated set of flash cards. The cards encompass the entire AP course and offer students the flexibility to study American history in ways not available with textbooks and study guides. The 500 cards run chronologically from the Colonial era of the early 1600s to the present day, and are divided into seven general categories: Arts and Sciences, Domestic Policies, Presidential Matters, Wars and Foreign Relations, Economy and Business, Legal Issues, and Society and Culture. They are numbered and labeled so that students can arrange them within a chronological time frame or according to any of the above-noted categories. Students can use the enclosed metal ring to rearrange the cards in any order that fits their study needs. Each card has a small corner punch hole to accommodate the ring.

**The Significance of the Frontier in American History** Penguin UK This hugely influential work marked a turning point in US history and culture, arguing that the nation's expansion into the Great West was directly linked to its unique spirit: a rugged individualism forged at the juncture between civilization and wilderness, which – for better or worse – lies at the heart of American identity today. Throughout history, some books have changed the world. They have transformed the way we see ourselves – and each other. They have inspired debate, dissent, war and revolution. They have enlightened, outraged, provoked and comforted. They have enriched lives – and destroyed them. Now Penguin brings you the works of the great thinkers, pioneers, radicals and visionaries whose ideas shook civilization and helped make us who we are.

**The League of Nations** Haus Publishing Ninety years ago, the League of Nations convened for the first time, hoping to create a safeguard against destructive, world-wide war by settling disputes through diplomacy. This book looks at how the League was conceptualized and explores the multifaceted body that emerged. This new form for diplomacy was used in ensuing years to counter territorial ambitions and restrict armaments, as well as to discuss human rights and refugee issues. The League's failure to prevent World War II, however, would lead to its dissolution and the subsequent creation of the United Nations. As we face new forms of global crisis, this timely book asks if the UN's fate could be ascertained by reading the history of its predecessor.

**Amsco's Integrated Algebra 1A** A new textbook designed for complete coverage of the New York State Core Curriculum for Integrated Algebra.

**Rum, Romanism, and Rebellion** The Making of a President, 1884 Univ of North Carolina Press The presidential election of 1884, in which Grover Cleveland ended the Democrats' twenty-four-year presidential drought by defeating Republican challenger James G. Blaine, was one of the gaudiest in American history, remembered today less for its political significance than for the mudslinging and slander that characterized the campaign. But a closer look at the infamous election reveals far more complexity than previous stereotypes allowed, argues Mark Summers. Behind all the mud and malarkey, he says, lay a world of issues and consequences. Summers suggests that both Democrats and Republicans sensed a political system breaking apart, or perhaps a new political order forming, as voters began to drift away from voting by party affiliation toward voting according to a candidate's stand on specific issues. Mudslinging, then, was done not for public entertainment but to tear away or confirm votes that seemed in doubt. Uncovering the issues that really powered the election and stripping away the myths that still surround it, Summers uses the election of 1884 to challenge many of our preconceptions about Gilded Age politics.

Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).

Students preparing for the Advanced Placement U.S. History exam will welcome this revised and updated set of flash cards. The cards encompass the entire AP course and offer students the flexibility to study American history in ways not available with textbooks and study guides. The 500 cards run chronologically from the Colonial era of the early 1600s to the present day, and are divided into seven general categories: Arts and Sciences, Domestic Policies, Presidential Matters, Wars and Foreign Relations, Economy and Business, Legal Issues, and Society and Culture. They are numbered and labeled so that students can arrange them within a chronological time frame or according to any of the above-noted categories. Students can use the enclosed metal ring to rearrange the cards in any order that fits their study needs. Each card has a small corner punch hole to accommodate the ring.

**PREMIUM PRACTICE FOR A PERFECT 5—WITH THE MOST PRACTICE ON THE MARKET!** Ace the 2022 AP European History Exam with this Premium version of The Princeton Review's comprehensive study guide. Includes 6 full-length practice exams, thorough content reviews, targeted test strategies, and access to online extras. Techniques That Actually Work. • Tried-and-true strategies to help you avoid traps and beat the test • Tips for pacing yourself and guessing logically • Essential tactics to help you work smarter, not harder Everything You Need to Know to Help Achieve a High Score. • Fully aligned with the latest College Board standards for AP® European History • Detailed review of the source-based multiple-choice questions and short-answer questions • Comprehensive guidance for the document-based question and long essay prompts • Access to study plans, a handy list of key terms and concepts, helpful pre-college information, and more via your online Student Tools Premium Practice for AP Excellence. • 6 full-length practice tests (4 in the book, 2 online) with complete answer explanations • End-of-chapter questions for targeted content review • Helpful timelines of

major events in European history

A history of roaring prosperity—and economic cataclysm: “The one account of America in the 1920s against which all others must be measured” (The Washington Post). Beginning November 11, 1918, when President Woodrow Wilson declared the end of World War I in a letter to the American public, and continuing through his defeat, Prohibition, the Big Red Scare, the rise of women’s hemlines, and the stock market crash of 1929, *Only Yesterday*, published just two years after the crash, chronicles a decade like no other. Allen, who witnessed firsthand the events he describes, immerses you in the era of flappers, speakeasies, and early radio, making you feel like part of history as it unfolds. This bestselling, enduring account brings to life towering historical figures including J. Pierpont Morgan, Henry Ford, Sigmund Freud, Albert Einstein, Al Capone, Babe Ruth, and Jack Dempsey. Allen provides insightful, in-depth analyses of President Warren G. Harding’s oil scandal, the growth of the auto industry, the decline of the family farm, and the long bull market of the late twenties. Peppering his narrative with actual stock quotes and breaking financial news, Allen tracks the major economic trends of the decade and explores the underlying causes of the crash. From the trial of Nicola Sacco and Bartolomeo Vanzetti to the inventions, crazes, and revolutions of the day, this timeless work will continue to be savored for generations to come.

The presidential election of 1884, in which Grover Cleveland ended the Democrats' twenty-four-year presidential drought by defeating Republican challenger James G. Blaine, was one of the gaudiest in American history, remembered today less for its political significance than for the mudslinging and slander that characterized the campaign. But a closer look at the infamous election reveals far more complexity than previous stereotypes allowed, argues Mark Summers. Behind all the mud and malarkey, he says, lay a world of issues and consequences. Summers suggests that both Democrats and Republicans sensed a political system breaking apart, or perhaps a new political order forming, as voters began to drift away from voting by party affiliation toward voting according to a candidate's stand on specific issues. Mudslinging, then, was done not for public entertainment but to tear away or confirm votes that seemed in doubt. Uncovering the issues that really powered the election and stripping away the myths that still surround it, Summers uses the election of 1884 to challenge many of our preconceptions about Gilded Age politics.
