Being a good mom isn't about doing everything right to create a set of perfect trophy children--though every mom has felt the pressure to do just that and to do it all on her own. To ask for help feels like defeat. Yet when we try to do it all by our own strength, we end up depleted, lonely, and ineffective. Heather MacFadyen wants you to know that you are not meant to go it alone. Sharing her most vulnerable, hard mom moments, she shows how moms can be empowered by God, supported by others, and connected with their children. With encouragement and insight, she helps you foster the key relationships you need to be the mom you want to be. Whether you work or stay home, whether you have teenagers or babes in arms, you'll find here a compassionate friend who wants the best--not just for your kids but for you.

"[A] landmark book . . . Solnit illustrates how the uprisings that begin on the streets can upend the status quo and topple authoritarian regimes" (Vice). A book as powerful and influential as Rebecca Solnit's Men Explain Things to Me, her Hope in the Dark was written to counter the despair of activists at a moment when they were focused on their losses and had turned their back to the victories behind them—and the unimaginable changes soon to come. In it, she makes a radical case for hope as a commitment to act in a world whose future remains uncertain and unknowable. Drawing on her decades of activism and a wide reading of environmental, cultural, and political history, Solnit argues that radicals have a long, neglected history of transformative victories, that the positive consequences of our acts are not always immediately seen, directly knowable, or even measurable, and that pessimism and despair rest on an unwarranted confidence about what is going to happen next. Now, with a moving new introduction explaining how the book came about and a new afterword that helps teach us how to hope and act in our unnerving world, she brings a new illumination to the darkness of our times in an unforgettable new edition of this classic book. "One of the best books of the 21st century." —The Guardian "No writer has better understood the mix of fear and possibility, peril and exuberance that's marked this new millennium." —Bill McKibben, New York Times–bestselling author of Falter "An elegant reminder that ac-

tivist victories are easily forgotten, and that they often come in extremely unexpected, roundabout ways." —The New Yorker

The gang is back in an all-new adventure! Join Hiro, Baymax, Go Go, Wasabi, Honey Lemon, and Fred as they fight to protect the streets of San Fransokyo.

The team behind IDW'S Comic Book History of Comics returns with a brand-new series! From Aardman to Zoetrope, Disney to Miyasaki, Hanna-Barbera to Pixar, and everything in between! Part One: Silent...but Deadly (Funny!) shows how the animated cartoon began with the first movies under the lawsuit-happy watch of Thomas Edison... cartoonist Winsor McCay shows how 'toons can make you feel as well as laugh... the Fleischer Brothers revolutionize the technology of animation... and an obscure filmmaker from Kansas City named Walt Disney gets his first big break! The perfect companion piece to CB-HoC, the Comic Book History of Animation focuses on the filmmakers and beloved characters of the past century and a half, and is essential for fans of the medium and "toon newbies" alike.

1000 movies. 100 years. 50 countries. 19 Samuel L. Jacksons. Featuring accessible capsule reviews of every significant superhero movie ever made (and most of the insignificant ones), The A to Z of superhero movies represents the deepest dive ever taken into this ubiquitous, crowd-pleasing genre.

What are "essential questions," and how do they differ from other kinds of questions? What's so great about them? Why should you design and use essential questions in your classroom? Essential questions (EQs) help target standards as you organize curriculum content into coherent units that yield focused and thoughtful learning. In the classroom, EQs are used to stimulate students' discussions and promote a deeper understanding of the content. Whether you are an Understanding by Design (UbD) devotee or are searching for ways to address standards—local or Common Core State Standards—in an en-

gaging way, Jay McTighe and Grant Wiggins provide practical guidance on how to design, initiate, and embed inquiry-based teaching and learning in your classroom. Offering dozens of examples, the authors explore the usefulness of EQs in all K-12 content areas, including skill-based areas such as math, PE, language instruction, and arts education. As an important element of their backward design approach to designing curriculum, instruction, and assessment, the authors *Give a comprehensive explanation of why EQs are so important; *Explore seven defining characteristics of EQs; *Distinguish between topical and overarching questions and their uses; *Outline the rationale for using EQs as the focal point in creating units of study; and *Show how to create effective EQs, working from sources including standards, desired understandings, and student misconceptions. Using essential questions can be challenging—for both teachers and students—and this book provides guidance through practical and proven processes, as well as suggested "response strategies" to encourage student engagement. Finally, you will learn how to create a culture of inquiry so that all members of the educational community—students, teachers, and administrators—benefit from the increased rigor and deepened understanding that emerge when essential questions become a guiding force for learners of all ages.

An against-the-grain polemic on American capitalism from New York Times best-

selling author Tyler Cowen. We love to hate the 800-pound gorilla. Walmart and Amazon destroy communities and small businesses. Facebook turns us into addicts while putting our personal data at risk. From skeptical politicians like Bernie Sanders who, at a 2016 presidential campaign rally said, "If a bank is too big to fail, it is too big to exist," to millennials, only 42 percent of whom support capitalism, belief in big business is at an all-time low. But are big companies inherently evil? If business is so bad, why does it remain so integral to the basic functioning of America? Economist and bestselling author Tyler Cowen says our biggest problem is that we don't love business enough. In *Big Business*, Cowen puts forth an impassioned defense of corporations and their essential role in a balanced, productive, and progressive society. He dismantles common misconceptions and untangles conflicting intuitions. According to a 2016 Gallup survey, only 12 percent of Americans trust big business "quite a lot," and only 6 percent trust it "a great deal." Yet Americans as a group are remarkably willing to trust businesses, whether in the form of buying a new phone on the day of its release or simply showing up to work in the expectation they will be paid. Cowen illuminates the crucial role businesses play in spurring innovation, rewarding talent and hard work, and creating the bounty on which we've all come to depend.

In *Media Heterotopias* Hye Jean Chung challenges the widespread tendency among audiences and critics to disregard the material conditions of digital film production. Drawing on interviews with directors, producers, special effects supervisors, and other film industry workers, Chung traces how the rhetorical and visual emphasis on seamlessness masks the social, political, and economic realities of global filmmaking and digital labor. In films such as *Avatar* (2009), *Interstellar* (2014), and *The Host* (2006)—which combine live action footage with CGI to create new hybrid environments—filmmaking techniques and "seamless" digital effects allow the globally dispersed labor involved to go unnoticed by audiences. Chung adapts Foucault's notion of heterotopic spaces to foreground this labor and to theorize cinematic space as a textured, multi-layered assemblage in which filmmaking occurs in transnational collaborations that depend upon the global movement of bodies, resources, images, and commodities. Acknowledging cinema's increasingly digitized and globalized workflow, Chung reconnects digitally constructed and composited imagery with the reality of production spaces and laboring bodies to high-

light the political, social, ethical, and aesthetic stakes in recognizing the materiality of collaborative filmmaking.

New York Times bestselling author Kathie Lee Gifford reveals heartwarming, entertaining conversations between people and personalities who both agree and disagree about who Jesus is, his role throughout history, and his presence in our lives today. For decades Kathie Lee has had deep conversations about her faith with anyone who is interested in talking about it. What she discovered early on is most people are very willing to talk about Jesus: atheists, agnostics, Scientologists, Jews, broken-hearted Catholics, confused Baptists, Pentecostals, Sikhs, Buddhists, and Hindus alike. While some of the people Kathie Lee has spoken with do not share her belief that Jesus is the Messiah—as prophesied for centuries by prophets in the Hebrew scriptures—they nonetheless have a universal fascination with Him. This singular man who lived more than two thousand years ago, and never traveled more than one hundred miles from where He was born, managed to change the entire world. Even the way we delineate history (BC/AD) comes from His short thirty-three years of life. In *The Jesus I Know*, Kathie Lee shares cherished conversations that she's had with others who find Jesus to be an ancient historical figure who somehow continues to be an undeniably magnetic, relevant presence in the modern world. Those conversations include actors like Kristin Chenoweth and Cynthia Garrett, with stories of Craig Ferguson and Kevin Costner, newsmakers and news personalities like Kris Jenner, Megyn Kelly, Jason Kennedy, and Janice Dean, performers like Chynna Phillips Baldwin, Brian Welch, Jimmie Allen, and Jimmy Wayne, hitmakers like Louis York and David Pomeranz, as well as those coming from other faith traditions. Using Kathie Lee's favorite Scripture passages as scaffolding, these thought-provoking exchanges will bring His teachings to life before your very eyes.
