BS 799-5 specifies requirements for the construction and testing of static carbon steel tanks for the storage of liquid fuel of classes A2, C1, C2, D, E, F, G and H conforming to BS 2869:2006 and FAME (fatty acid methyl esters) conforming to BS EN 14213, for use in conjunction with oil burning equipment.

A great way to help avoid these problems would be to perform an annual tune-up. Your outdoor power equipment's air filter provides superior protection against the destructive effects of dirt ingestion. Used on many engines, this OEM part ensures proper fit and performance to maintain the life of your Briggs & Stratton engine.
