ZCY4DO - MACIAS SIDNEY

Utilizing the first thirteen chapters of Wild's best-selling, Financial and Managerial Accounting text, Financial Accounting Fundamentals responds to the market's request for a low-cost, succinct book; a book that balances large and small businesses, and one that is contemporary, engaging, and accessible for today's students. Its innovation is reflected in its extensive use of small business examples, the integration of new technology learning tools, superior end-of-chapter material, and a highly engaging, pedagogical design.

Our primary reason for writing this book was to produce a text that can be easily understood by students and still provide comprehensive coverage of the topics generally found in a cost accounting text. To achieve this goal, we have included extensive il-

lustrations in each chapter and eliminated unnecessary words and details. Every chapter includes the following additional sections to aid the student in understanding the subject matter: chapter review, glossary, comprehensive summary problems with solutions, and assignment materials in the form of questions, multiple choice, exercises, and problems. Whenever applicable, assignment material was adapted from C.P.A. and C.M. A. examinations. Many chapters also include an appendix providing information beyond the scope of that which is normally presented in a cost accounting text. Fundamental concepts and techniques are covered in depth before a student is exposed to the more complex areas of cost accounting. To ensure a solid foundation, this text presents a thorough coverage of product costing. A second part, Cost Accounting: Concepts and Applications for Managerial

Decision Making (which includes Chapter (followed by Chapter 14-24), deals mainly with performance evaluation and managerial decision making. We feel it is vital for students to have a thorough understanding of product costing before they can attempt to analyze the data produced from today's sophisticated cost accounting systems.

Introduction to Managerial Accounting, 7/e by Brewer/Garrison/Noreen is based on the market-leading text, Managerial Accounting, by Garrison, Noreen and Brewer. Brewer 7e is a briefer, more accessible, and thoroughly student-friendly text that satisfies the basic needs of the managerial accounting student without unnecessary depth on advanced topics associated with the follow-up course cost accounting/cost management. Faculty and students alike will find this new edition has retained the hallmark features of the Garrison brand: author-written supplements, excellent readability, terrific examples, and balanced end-of-chapter material. In addition, Connect Accounting for Brewer/Garrison/Noreen has been expanded with new learning resources for your students.

Fundamentals of Cost Accounting provides a direct, realistic, and efficient way to learn cost accounting, integrated with new technology learning tools. Fundamentals is short (approximately 700 pages) making it easy to cover in one semester. The authors have kept the text concise by focusing on the key concepts students need to master. The Decision opening vignettes and Business Application boxes show realistic applications of these concepts throughout. All chapters conclude with a Debrief that links the topics in the chapter to the decision problem faced by the ma-

nager in the opening vignette. Comprehensive end-of-chapter material provides students with all the practice they need to fully learn each concept. McGraw-Hill Connect Accounting Plus provides students every advantage as they strive to understand the key concepts of cost accounting and its role in business. Connect Accounting Plus offers a complete digital solution with a robust on-line learning and homework management system, an integrated media-rich eBook, assignable end-of-chapter material, algorithmic functionality, and reporting capabilities. Contained within Connect Accounting is McGraw-Hill's adaptive learning system, LearnSmart, which is designed to help students learn faster, study more efficiently, and retain more knowledge for greater success.

Analyzing and managing costs is crucial for business success. Industrial, service, and non-profit companies will not be successful in the long-term if they do not understand their costs. This textbook introduces the basic concepts and current developments in cost accounting. The book features numerous anecdotal examples from a wide range of industries, case studies, Microsoft Excel examples, and exercises to ensure a sustainable learning success.

This book is an adaptation of the successful US text Cost Management by Hilton, Maher and Selto, written specifically for an international audience. Major improvements include: Diverse and truly international examples of organizations - Examples used throughout the book are from all over the world and represent manufacturing, retail, not-for-profit, and service firms in many different countries. Completely restructured and rewritten text - The book has been rewritten, restructured and also shortened significantly

to align content closer with international courses. Integral use of spreadsheets - Spreadsheet software is used for explaining techniques and making applications more realistic. In depth research - Summaries of international research studies that address important cost management issues have been updated and more references to recent research findings have been added. Intuitive explanation of accounting - The authors show directly how events impact the balance sheet and profit and loss account.

Garrison - Your guide through the challenging waters of managerial accounting. For centuries, the lighthouse has stood as a beacon of guidance for mariners at sea. More than an aid to navigation, the lighthouse symbolizes safety, permanence, reliability, and the comforts of the familiar. For this reason, we have chosen to illustrate the Canadian eighth edition of *Managerial Accounting* by Garrison, Chesley, Carroll and Webb with an image that encapsulates the greatest strengths of this market leading text. Garrison is your guide through the challenging waters of managerial accounting. It identifies the three functions managers must perform within their organizations—plan operations, control activities, and make decisions—and explains what accounting information is necessary for these functions, how to collect it, and how to interpret it. *Managerial Accounting*8ce focuses, now as in the past, on three qualities: Relevance, Balance and Clarity. The authors' steady focus on these core elements has led to tremendous results! As seafarers look to the lighthouse for direction along unfamiliar shore, so too can Garrison act as a compass for students seeking to master this course.

This student resource text is designed for use in postsecondary

cost accounting courses. The seventh edition provides a practical knowledge of cost accounting systems and procedures delivered in a clear, accessible, and easy-to-understand manner. It will prepare students for many of the career opportunities available in cost accounting, and will also enable them to understand and use cost accounting data in a variety of other business careers.

"We present the material from the perspective of both the preparer and the user of the information. We do this so that both accounting majors and those students planning other careers will appreciate the issues in preparing and using the information. The opening vignettes tie to one of the Business Application features in the chapter to highlight the relevance of cost accounting to today's business problems. All chapters end with Key Takeaways that summarize the core concepts of the chapter"--

Cost Accounting provides comprehensive coverage of cost accounting principles and techniques in short learning segments that make it easier for students to learn and understand the material. In addition to a clear, concise writing style, carefully planned organization, and numerous illustrations, this new edition now offers an even more attractive design that enhances learning while maintaining student interest. A spreadsheet applications disk can be packaged with the text.
