Lively reflections on the lectionary readings that are relevant to the here and now. Bill Blaikie has a unique insider's perspective on political life in Canada. As a United Church minister reflecting on three decades in the House of Commons, he tells the too-often-overlooked story of Canada's Christian left and, in particular, of the New Democratic Party's roots in the social gospel and its ongoing influence. This lively book is peppered with personal anecdotes, and political personalities and events from Canada's recent history. Foreword by Lloyd Axworthy, former minister of foreign affairs. Includes a colour photo insert.

First published in 1976, Howard M. Sachar's *A History of Israel: From the Rise of Zionism to Our Time* was regarded one of the most valuable works available detailing the history of this still relatively young country. Decades later, readers can again be immersed in this monumental work. The second edition of this volume covers topics such as the first of the Aliyahs in the 1880s; the rise of Jewish nationalism; the beginning of the political Zionist movement and, later, how the movement changed after Theodor Herzl; the Balfour Declaration; the factors that led to the Arab-Jewish confrontation; Palestine and its role both during the Second World War and after; the war of independence and the many wars that followed it over the next few decades; and the development of the Israeli republic and the many challenges it faced, both domestic and foreign, and still faces today. This is a truly enriching and exhaustive history of a nation that holds claim to one of the most complicated and controversial histories in the world.

Taking a novel approach to the contradictory impulses of violence and care, illness and healing, this book radically shifts the way we think of the interrelations of institutions and experiences in a globalizing world. *Living and Dying in the Contemporary World* is not just another reader in medical anthropology but a true tour de force—a deep exploration of all that makes life unbearable and yet livable through the labor of ordinary people. This

book comprises forty-four chapters by scholars whose ethnographic and historical work is conducted around the globe, including South Asia, East Asia, Latin America, Africa, the Middle East, Europe, and the United States. Bringing together the work of established scholars with the vibrant voices of younger scholars, *Living and Dying in the Contemporary World* will appeal to anthropologists, sociologists, health scientists, scholars of religion, and all who are curious about how to relate to the rapidly changing institutions and experiences in an ever more connected world.

The *Observant* reform of the religious orders remains one of the most important yet understudied religious movements of the later Middle Ages. This volume provides scholars with a current, synthetic introduction to the field, and suggests new avenues for future scholarship.

This report is intended to stimulate thinking about the rapid and vast geopolitical changes characterizing the world today and possible global trajectories over the next 15 years. As with the NIC's previous *Global Trends* reports, we do not seek to predict the future, which would be an impossible feat, but instead provide a framework for thinking about possible futures and their implications. In-depth research, detailed modeling and a variety of analytical tools drawn from public, private and academic sources were employed in the production of *Global Trends 2030*. NIC leadership engaged with experts in nearly 20 countries, from think tanks, banks, government offices and business groups, to solicit reviews of the report.

The Shadow Side of Fieldwork draws attention to the typically hidden or unacknowledged aspects of ethnographic fieldwork encounters that nevertheless shape the resulting knowledge and texts. Addressing these invisible, elusive, unspoken or mysterious elements introduces a distinctive rigor and responsibility to ethnographic research. *Luminaries in anthropology* dare to explore the 'unspeakable' and 'invisible' in the ethnographic encounter. Considers personal and professional challenges (ethical,

epistemological, and political) faced by researchers who examine the subjectivities inherent in their ethnographic insights. Explores the value, and limitations, of addressing the personal in ethnographic research. Includes a critical discussion of the anthropologist's self in the field. Introduces imaginative rigor to ethnographic research to heighten confidence in anthropological knowledge.

Decisive Reform for Our Dying Health Care System Xlibris Corporation. Dr. Stan Kardatzke is a physician who has practiced and taught clinical family practice for over 25 years. He has been a Chairman of two different managed health care companies. Formerly he was Chief Executive Officer of Physician Corporation of America, a managed care company which took care of the health of over 300,000 people across the nation. He has seen the problems of our health care system from many viewpoints. He writes this book from his depth of experience as a physician, businessman, church leader, and student of health economics. This book is for lawmakers, health regulators, employers, physicians, and all Americans who want to solve our nation's health care crisis. *Report in Favor of the Abolition of the Punishment of Death by Law* Forgotten Books. Excerpt from *Report in Favor of the Abolition of the Punishment of Death by Law: Made to the Legislature of the State of New York, April 14, 1841*. A second edition of the following Report being called for by the public demand, it is deemed proper to add to it a brief statement of the action of the body to which it was made, on the Bill by which it was accompanied. From the great accumulation and pressure of business before

the House of Assembly, it proved impossible to call the Bill up for consideration until within a few days of the adjournment. The same cause rendered it also necessary for its friends to allow it to pass to the vote without debate - without even a reply to three adverse speeches, of a character calculated to be extremely prejudicial to its success. Notwithstanding these unfavorable circumstances, on the first vote (that of ordering the Bill to its third reading) it was carried in the affirmative by a majority of five, the vote being, Ayes 57, Noes 52. Unfortunately it could not be brought up for the vote on its final passage until a late hour of a night session, when, from the physical exhaustion of a large number of Members, the attendance was very thin. It was then lost by the same majority of five, the vote being, Ayes 47, Noes 52. Among the absentees there was a large preponderance of its friends; and if the House had been full, it would have been carried by a decisive majority. At that period of the session, and under the forms and rules of procedure of the body, a reconsideration was impossible, and it became necessary to let the subject lie over till the next session. These circumstances are mentioned to dispel the discouragement which might be felt by some of the friends of this important and noble reform in our penal legislation, from the fact of its failure on this occasion. There appears every reason to expect its passage at the next session by a large majority; for the promotion of which object it is desirable that as numerous petitions, as numerably signed, as possible, should be addressed to the next Legislature. The German People and the Reformation - Cornell University Press "In the past, scholars tended to treat the Reformation as a chapter in the history of ideas, emphasizing the thought of the major reformers and the changes in Christian doctrine. Today, however, more and more historians are asking how the revolution in theology affected the lives of ordinary men and women. Aware that religious faith is part of

the larger cultural and material universe of early modern Europeans, these scholars have exploited hitherto neglected sources in an attempt to reconstruct the people's Reformation. The twelve essays commissioned for this collection represent the broad spectrum of recent scholarship in the social history of the German Reformation. Historians from various countries offer a panorama of different methodological approaches and thematic concerns. Some of the essays represent original research; others address current historiographical debates; still others offer concise syntheses of recently published monographs, including seminal works in German. The essays are centered around four themes: cities and the Reformation; the transmitting of the Reformation in print, ritual and song; women and the family; and lastly, the impact of the Reformation on education and other aspects of lay culture." - Back cover. Resistance, Rebellion, and Death Vintage In the speech he gave upon accepting the Nobel Prize for Literature in 1957, Albert Camus said that a writer "cannot serve today those who make history; he must serve those who are subject to it." And in these twenty-three political essays, he demonstrates his commitment to history's victims, from the fallen maquis of the French Resistance to the casualties of the Cold War. Resistance, Rebellion and Death displays Camus' rigorous moral intelligence addressing issues that range from colonial warfare in Algeria to the social cancer of capital punishment. But this stirring book is above all a reflection on the problem of freedom, and, as such, belongs in the same tradition as the works that gave Camus his reputation as the conscience of our century: *The Stranger*, *The Rebel*, and *The Myth of Sisyphus*. Global Trends 2030 Createspace Independent Publishing Platform This publication covers global megatrends for the next 20 years and how they will affect the United States. This is the fifth installment in the National Intelligence Council's series aimed at providing a framework for thinking about possible futures and their implications. The report is intended to stimulate strategic thinking about the rapid and vast geopolitical changes characterizing the world today and possible global trajectories during the next 15-20 years by identifying critical trends and potential discontinuities. The authors distinguish between megatrends, those factors that will likely occur under any scenario, and game-changers, critical variables whose trajectories are far less certain. NIC 2012-001. German and English—Yugoslav Economy Under Self-management—Springer The Time Before You Die—Ignatius Press A powerful, beautifully written novel of loss, finding and being found, set in a very traumatic time in European history—the Protestant Reformation. The turbulent sixteenth century saw the disintegration of medieval Christendom as it was split into sovereign states. This was particularly destructive in Tudor England, where rapid switches in government policy and religious persecution shattered the lives of many. Especially affected were the monks and nuns who were persecuted by the wholesale dissolution of the monasteries carried out under Henry VIII. One of these monks, Robert Fletcher, a Carthusian of the dismantled priory of Mount Grace in Yorkshire, is the hero of this novel. The story of this strong, vulnerable man is told in counterpoint with the story of one of the most interesting men in all of English history, Reginald Pole, a nobleman, scholar and theologian who was exiled to Italy for twenty years. He was a cardinal of the Church and a papal legate at the Council of Trent. As the archbishop of Canterbury, with his cousin Queen Mary Tudor, he tried, in too short a time, to renew Catholic England. This man, in the tragic last months of his life, becomes in the novel the friend of Robert Fletcher, condemned as a heretic. Readers will learn much from this novel of the anguished period that gave birth to Tridentine Catholicism, the Anglican Church, and other Protestant churches. This same period saw the martyrdom of Thomas More, Thomas Cranmer, John Fisher and many others. The profound issues raised in this novel, which contains no altered historical facts but more human truth than facts alone can deliver, have not gone away. The Catholic Reformation—Routledge The Catholic Reformation provides a comprehensive history of the 'Counter Reformation' in early modern Europe. Starting from the middle ages, Michael Mullett clearly traces the continuous transformation of the Catholic religion in its structures, bodies and doctrine. He discusses the gain in momentum of Catholic renewal from the time of the Council of Trent, and considers the profound effect of the Protestant Refor-

mation in accelerating its renovation. This book explores how and why the Catholic Reformation occurred, stressing that moves towards restoration were underway well before the Protestant Reformation. Michael Mullett also shows the huge impact it had not only on the papacy, Church leaders and religious ritual and practice, but also on the lives of ordinary people—their culture, arts, attitudes and relationships. Ranging across the continent, The Catholic Reformation is an indispensable new survey which provides a wide-ranging overview of the religious, political and cultural history of the time. The Poor Indians—University of Pennsylvania Press Between the English Civil War of 1642 and the American Revolution, countless British missionaries announced their intention to "spread the gospel" among the native North American population. Despite the scope of their endeavors, they converted only a handful of American Indians to Christianity. Their attempts to secure moral and financial support at home proved much more successful. In *The Poor Indians*, Laura Stevens delves deeply into the language and ideology British missionaries used to gain support, and she examines their wider cultural significance. Invoking pity and compassion for "the poor Indian"—a purely fictional construct—British missionaries used the Black Legend of cruelties perpetrated by Spanish conquistadors to contrast their own projects with those of Catholic missionaries, whose methods were often brutal and deceitful. They also tapped into a remarkably effective means of swaying British Christians by connecting the latter's feelings of religious superiority with moral obligation. Describing mission work through metaphors of commerce, missionaries asked their readers in England to invest, financially and emotionally, in the cultivation of Indian souls. As they saved Indians from afar, supporters renewed their own faith, strengthened the empire against the corrosive effects of paganism, and invested in British Christianity with philanthropic fervor. *The Poor Indians* thus uncovers the importance of religious feeling and commercial metaphor in strengthening imperial identity and colonial ties, and it shows how missionary writings helped fashion British subjects who were self-consciously transatlantic and imperial because they were religious, sentimental, and actively charitable.—Global Trends 2030—U.S. Government Printing Office This report is intended to stimulate thinking about the rapid and vast geopolitical changes characterizing the world today and possible global trajectories over the next 15 years. As with the NIC's previous Global Trends reports, we

do not seek to predict the future, which would be an impossible feat, but instead provide a framework for thinking about possible futures and their implications. In-depth research, detailed modeling and a variety of analytical tools drawn from public, private and academic sources were employed in the production of *Global Trends 2030*. Lamenting the absence today of sermons and writings on this important subject, Schönborn meets that need by delving deeply into the Church's rich tradition of thought on life beyond death. Today, language about man's pilgrim path, about his homeland in heaven, of earthly tribulation and hope for life beyond death, has become largely a foreign language in the Christian churches. It is only seldom that a sermon dares to look out on the vista of eternal life. It seems that fear of being accused of dispensing a consolation in a life after death and of fleeing from the world has become to a large extent a self-censorship. Bishop Schönborn says that this "eschatological amnesia" is one reason why many people no longer turn to the Church when they want information about the "last things." In this book, Schönborn shows that Jesus Christ is the focal point of the Christian vision of life on earth and life after death. Christ is the Alpha and the Omega, the one who discloses to us what "existence in transition" means. *Dictionary of the Political Thought of the People's Republic of China*—Routledge Far more than a simple glossary, this unique resource provides a detailed lexicography of political and social life in China today, and deepens our understanding of the last twenty years of enormous change in the People's Republic. Mark Canuel argues that Romantic writers in Great Britain led one of the earliest assaults on the death penalty and were instrumental in bringing about penal-law reforms. He demonstrates how writers like Percy Bysshe Shelley, Lord Byron, William Wordsworth, and Jane Austen defined the fundamental contradictions that continue to inform today's debates about capital punishment. Celebrated reformers like Sir Samuel Romilly and William Ewart campaigned against the widespread use of death to punish crimes ranging from murder to petty theft, but they were most influential for initiating a system of penalties built upon conflicting motivations and justifications. Canuel examines the ways Romantic poets and novelists magnified these tensions while treating them as uniquely aesthetic opportunities, seized upon contending rationales of punishment to express imaginative power, and revealed how the imagination fueled the new penal code's disturbing vitality. *Death-penalty reform*, Canuel argues, in fact emerged from a new way of thinking about punishment as a negotiation among rationales rather than a seamless whole, with leniency and severity constantly at odds. He concludes by exploring how Romantic penal reform continues to influence contemporary views about the justice--and injustice--of legal sanctions. *Outlook* The Eclectic Review The Eclectic review. vol. 1-New [8th] *Freedom in the World 2018* Rowman & Littlefield *Freedom in the World* is the standard-setting comparative assessment of global political rights and civil liberties. Invoking pity and compassion for "the poor Indian"—a purely fictional construct—British missionaries used the Black Legend of cruelties perpetrated by Spanish conquistadors to contrast their own projects with those of Catholic missionaries, whose methods were often brutal and deceitful. They also tapped into a remarkably effective means of swaying British Christians by connecting the latter's feelings of religious superiority with moral obligation. Describing mission work through metaphors of commerce, missionaries asked their readers in England to invest, financially and emotionally, in the cultivation of Indian souls. As they saved Indians from afar, supporters renewed their own faith, strengthened the empire against the corrosive effects of paganism, and invested in British Christianity with philanthropic fervor. *The Poor Indians* thus uncovers the importance of religious feeling and commercial metaphor in strengthening imperial identity and colonial ties, and it shows how missionary writings helped fashion British subjects who were self-consciously transatlantic and imperial because they were religious, sentimental, and actively charitable. Excerpt from Report in Favor of the Abolition of the Punishment of Death by Law: Made to the Legislature of the State of New York, April 14, 1841 A second edition of the following Report being called for by the public demand, it is deemed proper to add to it a brief statement of the action of the body to which it was made, on the Bill by which it was accompanied. From the great accumulation and pressure of business before the House of Assembly, it proved impossible to call the Bill up for consideration until within a few days of the adjournment. The same cause rendered it also necessary for its friends to allow it to pass to the vote without debate - without even a reply to three adverse speeches, of a character calculated to be extremely prejudicial to its success. Notwithstanding these unfavorable circumstances, on the first vote (that of ordering the Bill to its third reading) it was carried in the affirmative by a majority of five, the vote being, Ayes 57, Noes 52. Unfortunately it could not be brought up for the vote on its final passage until a late hour of a night session, when, from the physical exhaustion of a large number of Members, the attendance was very thin. It was then lost by the same majority of five, the vote being, Ayes 47, Noes 52. Among the absentees there was a large preponderance of its friends; and if the House had been full, it would have been carried by a decisive majority. At that period of the session, and under

the forms and rules of procedure of the body, a reconsideration was impossible, and it became necessary to let the subject lie over till the next session. These circumstances are mentioned to dispel the discouragement which might be felt by some of the friends of this important and noble reform in our penal legislation, from the fact of its failure on this occasion. There appears every reason to expect its passage at the next session by a large majority; for the promotion of which object it is desirable that as numerous petitions, as numerably signed, as possible, should be addressed to the next Legislature. A powerful, beautifully written novel of loss, finding and being found, set in a very traumatic time in European history--the Protestant Reformation. The turbulent sixteenth century saw the disintegration of medieval Christendom as it was split into sovereign states. This was particularly destructive in Tudor England, where rapid switches in government policy and religious persecution shattered the lives of many. Especially affected were the monks and nuns who were persecuted by the wholesale dissolution of the monasteries carried out under Henry VIII. One of these monks, Robert Fletcher, a Carthusian of the dismantled priory of Mount Grace in Yorkshire, is the hero of this novel. The story of this strong, vulnerable man is told in counterpoint with the story of one of the most interesting men in all of English history, Reginald Pole, a nobleman, scholar and theologian who was exiled to Italy for twenty years. He was a cardinal of the Church and a papal legate at the Council of Trent. As the archbishop of Canterbury, with his cousin Queen Mary Tudor, he tried, in too short a time, to renew Catholic England. This man, in the tragic last months of his life, becomes in the novel the friend of Robert Fletcher, condemned as a heretic. Readers will learn much from this novel of the anguished period that gave birth to Tridentine Catholicism, the Anglican Church,

and other Protestant churches. This same period saw the martyrdom of Thomas More, Thomas Cranmer, John Fisher and many others. The profound issues raised in this novel, which contains no altered historical facts but more human truth than facts alone can deliver, have not gone away.

The Catholic Reformation provides a comprehensive history of the 'Counter Reformation' in early modern Europe. Starting from the middle ages, Michael Mullett clearly traces the continuous transformation of the Catholic religion in its structures, bodies and doctrine. He discusses the gain in momentum of Catholic renewal from the time of the Council of Trent, and considers the profound effect of the Protestant Reformation in accelerating its renovation. This book explores how and why the Catholic Reformation occurred, stressing that moves towards restoration were underway well before the Protestant Reformation. Michael Mullett also shows the huge impact it had not only on the papacy, Church leaders and religious ritual and practice, but also on the lives of ordinary people - their culture, arts, attitudes and relationships. Ranging across the continent, *The Catholic Reformation* is an indispensable new survey which provides a wide-ranging overview of the religious, political and cultural history of the time.

The Encyclopedia of Martin Luther and the Reformation is a comprehensive study of the life and work of Martin Luther and the movements that followed him—in history and through today. Entries explore Luther's contributions to theology, sacraments, his influence on the church and contemporaries, his character, and more.

The Shadow of Death is a timely and ambitious reassessment of English Romantic literature and the unique role it played in one of the great liberal political causes of the modern age. Mark Canuel argues that Romantic writers in Great Britain led one of the earliest assaults on the death penalty and were instrumental in bringing about penal-law reforms. He demonstrates how writers like Percy Bysshe Shelley, Lord Byron, William Wordsworth, and Jane Austen defined the fundamental contradictions that continue to inform today's debates about capital punishment. Celebrated reformers like Sir Samuel Romilly and William Ewart campaigned against the widespread use of death to punish crimes ranging from murder to petty theft, but they were most influential for initiating a system of penalties built upon conflicting motivations and justifications. Canuel examines the ways Romantic poets and novelists magnified these tensions while treat-

ing them as uniquely aesthetic opportunities, seized upon contending rationales of punishment to express imaginative power, and revealed how the imagination fueled the new penal code's disturbing vitality. Death-penalty reform, Canuel argues, in fact emerged from a new way of thinking about punishment as a negotiation among rationales rather than a seamless whole, with leniency and severity constantly at odds. He concludes by exploring how Ro-

mantic penal reform continues to influence contemporary views about the justice--and injustice--of legal sanctions.

In the speech he gave upon accepting the Nobel Prize for Literature in 1957, Albert Camus said that a writer "cannot serve today those who make history; he must serve those who are subject to it." And in these twenty-three political essays, he demonstrates his commitment to history's victims, from the fallen maquis of the French Resistance to the casualties of the

Cold War. *Resistance, Rebellion and Death* displays Camus' rigorous moral intelligence addressing issues that range from colonial warfare in Algeria to the social cancer of capital punishment. But this stirring book is above all a reflection on the problem of freedom, and, as such, belongs in the same tradition as the works that gave Camus his reputation as the conscience of our century: *The Stranger*, *The Rebel*, and *The Myth of Sisyphus*.
