"'More reading power' Second edition, is a student-centered reading skills textbook based on a cognitive skills approach. Its four key sections, designed to be used concurrently, help intermediate to high-intermediate students develop solid reading skills necessary in school, college, or business." --- Cover.

Read this! 1 is for high-beginning to low-intermediate students. It features content rich, high-interest readings related to the academic content areas of communication, technology, mathematics, business, and engineering.

Equips students to read and understand authentic short stories with vocabulary, reading, and critical thinking skills. Classic and contemporary stories give students a thorough background in North American literature. Every chapter gives students practice in guessing meaning from context, which re-

search shows is one of the most important skills for reading unadapted texts. Students also learn to think critically, make inferences, discuss what they read and write responses to the work. --

An encyclopedia designed especially to meet the needs of elementary, junior high, and senior high school students.

Build reading skills while learning about a dolphin...from a dolphin's perspective! How do dolphins talk to each other? How does a dolphin breathe or grunt? What do dolphins eat? Written from a dolphin's unique point of view and accompanied with stunning photographs, Discovery All Star Readers: I Am A Dolphin Level 1 answers these questions and more while helping early readers build literacy skills and a love of reading. This reader includes easy vocabulary familiar to kindergartners and first-graders, and a glossary to reinforce reading comprehension.

Previous ed. published: N.Y.: Pearson Longman, 2003; More reading power / Beatrice S. Mikulecky, 2nd ed.

North American short stories enhance pre-intermediate students' reading skills, language learning, and enjoyment of literature. Discovering Fiction, An Introduction, has the same unit and chapter structure as the two higher level books, Discovering Fiction Level 1 and Level 2. There are four units, each containing three stories that are related in terms of their theme; extensive prereading and post-reading tasks accompany each story. Unlike the other two books, however, an audio CD containing a reading of each story is packaged into each Student's Book.

Provides carefully scaffolded writing activities and further reading texts so that students can put the language they learn into practice. In every unit there are opportunities for the children to think creatively and build upon what they have learned in the Student Book, particularly in the story, values and cross-circular lessons. Opportunities for personalisation, including short end or unit projects to take home. Enhanced lesson-for-lesson activities provide parents with step-by-step instructions to better support their child with their homework.

"English is so illogical!" It is generally believed that English is a language of exceptions. For many, learning to spell and read is frustrating. For some, it is impossible... especially for the 29% of Americans who are functionally illiterate. But what if the problem is not the language itself, but the rules we were taught? What if we could see the complexity of English as a powerful tool rather than a hindrance? --Denise Eide Uncovering the Logic of English challenges the notion that English is illogical by systematically explaining English spelling and answering questions like "Why is there a silent final E in have, large, and house?" and "Why is discussion spelled with -sion rather than -tion?" With easy-to-read examples and anecdotes, this book describes: - the phonograms and spelling rules which explain 98% of English words - how English words are formed and how this knowledge can revolutionize vocabulary development - how understanding the reasons behind English spelling prevents students from needing to guess The author's inspiring commentary makes a compelling case that understanding the logic of English could transform literacy education and help solve America's literacy crisis. Thorough and filled with the latest linguistic and reading research, Uncovering the Logic of English demonstrates why this systematic approach should be as foundational to our education as 1+1=2.

Discover More Readers: Planets is a Level 1 Reader (ages 4-6) packed with key facts, vivid diagrams,

exciting photographs and simple sentences to explain it all. Early readers can discover how planets were formed, why they attract stars, moons, and satellites and all about the Milky Way galaxy. Comes with free digital book featuring extra content, games and activities, plus audio and video enhancements.

How do you ensure your students have a full understanding of grammar use, meaning, and form? Oxford Discover Grammar presents grammar through context, guiding students as they discover meaning. It combines this guided discovery approach with extensive form-based practice, ensuring that students have all the knowledge they need to use English grammar confidently and accurately. Use alongside Oxford Discover, or on its own to help your students improve their grammar.

Authentic North American short stories enhance students' reading skills, language learning, and enjoyment of literature. The Teacher's Manual provides tips and strategies on how to teach the different exercise types in a chapter. In addition, the authors provide interpretative commentary on the readings, helping teachers gain a literary appreciation of the text. Finally, a complete answer key is provided, including suggested answers to the critical thinking questions.

Oxford Read and Imagine graded readers are at eight levels (Starter, Beginner, and Levels 1 to 6) for students from age 4 and older. They offer great stories to read and enjoy. Activities provide Cambridge Young Learner Exams preparation. At Levels 1 to 6, every storybook reader links to an Oxford Read and Discover non-fiction reader. The first six Oxford Read and Imagine readers are publishing in January 2014, with more soon - teacher support materials and more information to follow. Audio in a choice of American and British English is available for every reader. At Levels Starter and Beginner, this audio is free to download from below for Oxford Teachers' Club members, or from the Student's Site at [www.oup.com/elt/readandimagine](http://www.oup.com/elt/readandimagine). At Levels 1 to 6, audio is available in CD packs for every reader.

Authentic North American short stories enhance students' reading skills, language learning, and enjoyment of literature. The Instructor's Manual for Discovering Fiction, Student's Book 2, provides further information about the stories, teaching suggestions, and an answer key. In addition, a useful brief synopsis of each story is provided in the Elements of a Short Story section.

Read and discover all about young animals. What color are baby zebras? Where do young bears live? Read and discover more about the world! This series of non-fiction readers provides interesting and educational content, with activities and project work.

From the critically acclaimed author of *The 25th Hour* and *When the Nines Roll Over* and co-creator of the HBO series *Game of Thrones*, a captivating novel about war, courage, survival — and a remarkable friendship that ripples across a lifetime. During the Nazis' brutal siege of Leningrad, Lev Be-niov is arrested for looting and thrown into the same cell as a handsome deserter named Kolya. Instead of being executed, Lev and Kolya are given a shot at saving their own lives by complying with an outrageous directive: secure a dozen eggs for a powerful Soviet colonel to use in his daughter's wedding cake. In a city cut off from all supplies and suffering unbelievable deprivation, Lev and Kolya embark on a hunt through the dire lawlessness of Leningrad and behind enemy lines to find the impossible. By turns insightful and funny, thrilling and terrifying, the New York Times bestseller

*City of Thieves* is a gripping, cinematic World War II adventure and an intimate coming-of-age story with an utterly contemporary feel for how boys become men.

Discovering Fiction is a two-level reading series that introduces students to authentic American literature. Student's Book 2 is an anthology of eighteen short stories by contemporary and classic American authors, including Kate Chopin, Ernest Hemingway, Langston Hughes, and Shirley Jackson. The stories have universal appeal that will touch students and make them think. Designed for high-intermediate to advanced students, the text provides interactive, integrated skills lessons developed around each story. Pre-reading sections include prior knowledge questions, author biographies, discussions of literary terms, and reviews of idioms and expressions found in the stories. Accompanying grammar exercises help students overcome such trouble areas as prepositions, articles, and irregular verbs. Also included are vocabulary sections, reading comprehension questions, and thought-provoking discussion and writing topics. Review sections tie the stories together and provide review tests.

"A research-based ... grammar series for beginning- to advanced-level students of North American English. The series focuses on the grammar structures most commonly used in North American English, with an emphasis on the application of the grammar structures to academic writing. ... It is designed for use both in the classroom and as a self-study learning tool"--Introduction.

NorthStar, Fifth Edition is an integrated-skills English course that empowers adult and young adult English language learners to achieve their academic and personal goals. Current and thought-provoking topics promote language development and critical thinking skills. Building on the success of previous editions, this new fifth edition engages and motivates students with new and updated content. What is new in the fifth edition? \* New and updated content with a new theme keeps students motivated. \* The new design and imagery bring the activities to life. \* Learning outcomes are created using the Global Scale of English (GSE) so students can see their progress more easily. \* Every unit offers note-taking practice and writing skill development. \* Scaffolded critical thinking activities are clearly marked to help students develop their academic skills. \* Academic Word List words are highlighted to help students identify essential vocabulary. \* New and updated activities in MyEnglishLab provide additional practice online. \* ExamView Test Generator allows teachers to customize assessments. \* Students can complete activities, listen to audio, and watch video on the go with the Pearson Practice English App.

The search for life in the universe, once the stuff of science fiction, is now a robust worldwide research program with a well-defined roadmap probing both scientific and societal issues. This volume examines the humanistic aspects of astrobiology, systematically discussing the approaches, critical issues, and implications of discovering life beyond Earth. What do the concepts of life and intelligence, culture and civilization, technology and communication mean in a cosmic context? What are the theological and philosophical implications if we find life - and if we do not? Steven J. Dick argues that given recent scientific findings, the discovery of life in some form beyond Earth is likely and so we need to study the possible impacts of such a discovery and formulate policies to deal with them. The remarkable and often surprising results are presented here in a form accessible to disciplines across the sciences, social sciences, and humanities.
