Hydraulic Brake Ram 20mm - Trailer Parts, Trailer Spares ...

It works as a hydraulic actuator which has a piston-cylinder arrangement. It is responsible for the conversion of mechanical force into the hydraulic force. As the brake pedal is pressed the fluid in the master cylinder compressed and exerts pressure which is transmitted to Brake assembly through the hydraulic lines. 2. Brake pedal and mechanical linkage: Brake pedal works as the input to the master cylinder or we can say that whole assembly will start working when the brake pedal is pressed.
