Take a fun look back at Quacker Oats, Blisterine, and more classic packaging parodies—plus an interview with creator Art Spiegelman! Known affectionately among collectors as "Wacky Packs," the Topps stickers that parodied well-known consumer brands were a phenomenon in the 1970s—even outselling the Topps Company's baseball cards for a while. But few know that the genius behind it all was none other than Art Spiegelman—the Pulitzer Prize-winning graphic novelist who created Maus. This treasury includes an interview with Spiegelman about his early career and his decades-long relationship with the memorabilia company—as well as a colorful compendium that will bring back memories of such products as Plastered Peanuts, Jail-O, Weakies cereal, and many more. Illustrated by notable comics artists Kim Deitch, Bill Griffith, Jay Lynch, Norm Saunders, and more, this collection is a visual treat, a load of laughs, and a tribute to a beloved product that's been delighting kids (and adults) for decades.

Martyr or murderer? Captain Henry Wirz and Andersonville Prison is an analysis that will aid readers in reaching their own conclusions about the infamous prison warden and his stint at the most notorious Confederate prison. Andersonville prison has been the subject of much speculation and examination. This even-handed study concentrates on the dilemmas and difficulties Captain Henry Wirz faced there, as well as on the limitations of his leadership abilities. Approximately 13,000 prisoners died at Andersonville, and in the outcry in the North over the appalling conditions and terrific death toll upon the liberation of the prison, Wirz was held to be largely responsible. R. Fred Ruhlman goes beyond merely examining the trial of Henry Wirz—which resulted in Wirz's execution—and presents his story and that of Andersonville in an engaging and thoughtful treatment. Removing the layers of mythology that have attached to Wirz over the years, Ruhlman offers a close examination of Wirz and the harsh politics and ideology, Northern and Southern, that swirled around the ending of the nation's greatest conflict. Neither a martyr nor a murderer, Wirz was an imperfect, sometimes misguided, and always misunderstood soldier caught in the vortex of circumstance while attempting to do his duty. Commonly accepted policies and procedures for the care and treatment of prisoners and how they were applied at Andersonville are also examined. An analysis of the rules of procedure for the military justice system that placed Wirz on trial and resulted in his execution proves how outrage helped shape the cruel last months of war and left an indelible final act to the drama of notorious Andersonville.

"... Describes the development of wildlife administration and management in New Zealand which led to this combination of functions in the Wildlife Service, and the changes in attitudes towards wildlife and conservation which eventually in 1987 brought about its replacement. Against this background of shifting ideas and policies, "Working for wildlife" also presents the exploits and achievements of the dedicated band of Wildlife officers. They were pre-eminently people of action rather than bureaucratic administrators: fisheries technicians wading in chilly streams to record and measure migrating trout; fauna conservation field officers and scientists searching for the last of the kakapo in the precipitous Fiordland country, or scaling the cliffs of Little Mangere Island to find ways to rescue the black robins; deer-cullers in the hills fighting the "Deer Menace". They were the original good keen men; the exploits of those who worked for Wildlife will stir the pride of all New Zealanders."--Back cover.

The author of nine novels, three collections of short stories, and two critical works, Caroline Gordon produced an impressive--though unjustly neglected--body of work. Her considerable contributions to modern Southern fiction notwithstanding, her life was especially fascinating for two other reasons: the prominent literary circles in which she moved and her heroic efforts to "have it all"--marriage, career, and family--at a time when such aspiration was neither touted nor supported. Sensitive, engaging, and richly detailed, this biography captures Gordon's life in all its multiple layers. As the wife of the poet Allen Tate, Gordon became intimately connected with members of the Fugitive/Agrarian circle, notably Robert Penn Warren and Andrew Lytle. As the Fugitives expanded their vision from Southern to modernistic approaches to literature, Gordon's circle of friends and acquaintances grew to include Ford Madox Ford, T.S. Eliot, Katherine Anne Porter, Scott and Zelda Fitzgerald, Ernest Hemingway, Flannery O'Connor, Walker Percy, Eudora Welty, Robert Lowell, Maxwell Perkins, Hart Crane, William Faulkner, and many others. Even more intriguing, though, is Gordon's story as a Southerner, a woman, and a writer--roles that, for her, were as often mutually exclusive as synergistic. Her life was in some ways similar to that of Zelda Fitzgerald: the Southern belle with the writer-husband and artistic aspirations of her own. Unlike Zelda, Caroline Gordon did not collapse under the strain, although there were times she paid--particularly in her intense and tangled relationship with Allen Tate, whose work overshadowed her own (or so it seemed to her) and whose philanderings were a continual source of strain and jealousy. In addition to following the windings of Gordon's life--through New York and Tennessee, through England and Paris--Veronica Makowsky looks closely at Gordon's key works--including such novels as *Penhally*, a complex family saga that was her first published book; *Aleck Maury*, *Sportsman*, the much loved classic for which she is still remembered; *The Malefactors*, a portrait of an aging poet modeled after Tate; and her much admired short stories. In conducting her research, Makowsky interviewed Gordon shortly before her death in 1981 and also received the full cooperation of Gordon's family in gaining access to the novelist's papers. From such rich sources she has produced a compellingly readable portrait of a remarkable woman.

A sea kayak battles the freezing Irish waters as the morning sun rises out of the countryside. On the western horizon is the pinnacle of Skellig Michael-700 feet of vertical rock rising out of exploding seas. Somewhere on the isolated island are sixth-century monastic ruins where the light of civilization was kept burning during the Dark Ages by early Christian Irish monks. Puffins surface a few yards from the boat, as hundreds of gannets wheel overhead on six foot wing spans. The ocean rises violently and tosses paddler and boat as if they were discarded flotsam. This is just one day of Chris Duff's incredible three month journey.

A shocking revelation No one vitally interested in the past, present, or future of the national parks can afford to ignore this work of historical dynamite. This is the first comprehensive history of Olympic National Park A case study of the need for citizen action to protect our natural areas As a

seasonal ranger in Olympic National Park early in his career, Carsten Lien discovered the shocking truth. Flouting the law, and contrary to public expectation, the National Park Service was logging the very land it was supposed to preserve. Lien vowed to uncover the story behind the destruction. In Olympic Battleground, Lien documents more than one hundred years of political chicanery, citizen activism, bureaucratic failure, and the loss of primeval forest. This classic in historical investigation is now updated with a new chapter on the most recent preservation challenges confronting the park. Four bodies, each with a single bullet wound in the back of the head, stacked like cordwood in a weed-choked vacant lot: That's the front-page news facing Carter Ross, investigative reporter with the Newark Eagle-Examiner. Immediately dispatched to the scene, Carter learns that the four victims—an exotic dancer, a drug dealer, a hustler, and a mama's boy—came from different parts of the city and didn't seem to know one another. The police, eager to calm jittery residents, leak a theory that the murders are revenge for a bar stickup, and Carter's paper, hungry for a scoop, hastily prints it. Carter doesn't come from the streets, but he understands a thing or two about Newark's neighborhoods. And he knows there are no quick answers when dealing with a crime like this. Determined to uncover the true story, he enlists the aide of Tina Thompson, the paper's smoking-hot city editor, to run interference at the office; Tommy Hernandez, the paper's gay Cuban intern, to help him with legwork on the streets; and Tynesha Dales, a local stripper, to take him to Newark's underside. It turns out that the four victims have one connection after all, and this knowledge will put Carter on the path of one very ambitious killer. *Faces of the Gone* by Brad Parks won the Shamus Award for Best First Novel and the Nero Award for Best American Mystery--it is the first book to receive both awards. The book was named to lists of the year's best mystery debuts by the Chicago Sun-Times and South Florida Sun-Sentinel.

It could be said that Davie County, North Carolina, entered the Civil War only reluctantly. As late as the winter of 1861, a statewide ballot calling for a convention on secession had been defeated by a relatively small margin of votes. In Davie County, however, some 754 people voted against the convention while only 263 voted in favor of the convention. And yet despite the initial opposition, a staggering percentage of Davie County men served. Out of a total population of 6,000, more than 1,200 men served in the Confederate service, three-fourths of whom joined as volunteers. These men were members of several companies, from the Davie Greys to the Davie Sweepstakes, and participated in some of the fiercest and most important battles, including the Battles of Fort Fisher, Seven Pines, Second Manassas, Harpers Ferry, Antietam, and Fredericksburg.

A journey through the history of country music.
