Yet in 1960, Simon Murray traveled alone to Paris, Marseilles, and ultimately Algeria to fulfill the toughest contract of his life: a five-year stint in the Legion. Along the way, he kept a diary. Legionnaire is a compelling, firsthand account of Murray's experience with this legendary band of soldiers. This gripping journal offers stark evidence that the Legion's reputation for pushing men to their breaking points and beyond is well deserved. In the fierce, sun-baked North African desert, strong men cracked under brutal officers, merciless training methods, and barbarous punishments. Yet Murray survived, even thrived. For he shared one trait with these hard men from all nations and backgrounds: a determination never to surrender. A PASSAGE TO AFRICA is Alagiah's shattering catalogue of atrocities crafted into a portrait of Africa that is infused with hope, insight and outrage. In vivid and evocative prose and with a fine eye for detail Alagiah's viewpoint is spiked with the freshness of the young George on his arrival in Ghana, the wonder with which he recounts his first impressions of Africa and the affection with which he dresses his stories of his early family life. A sense of possibility lingers, even though the book is full of uncomfortable truths. It is a book neatly balanced on his integrity and sense of obligation in his role as a writer and reporter. The shock of recognition is always there, but it is the personal element that gives A PASSAGE TO AFRICA its originality. Africa becomes not only a group of nations or a vast continent, but an epic of individual pride and suffering.- Solid Waste Management in the World's CitiesWater and Sanitation in the World's Cities 2010Routledge"In a rapidly urbanizing global society, solid waste management will be a key challenge fac-

The WHO Regional Office for Europe commissioned this report to support the implementation of the health 2020 Framework. It builds on "Governance for Health in the 21st Century," a study conducted for the WHO Regional office for Europe. This report provides policy-makers with examples from around the world of how whole-of-government and whole-of-society approaches have been implemented together with a set of tools to manage the complex policy process. These policy examples have been selected with a view to the priority areas set by the Health 2020 policy framework and with the following criteria in mind: they provide useful lessons, often illustrate best practices, cover a wide variety of different contexts and countries and, as far as possible, have been implemented and, ideally, evaluated. The report aims to contribute, in particular, to the Health 2020 strategic policy objective of "improving leadership and participatory governance for health." It is conceived as a living document that will be continually enriched with new examples and analysis.

As a five-year-old, George Alagiah emigrated with his family to Ghana - the first African country to attain independence from the British Empire. A PASSAGE TO AFRICA is Alagiah's shattering catalogue of atrocities crafted into a portrait of Africa that is infused with hope, insight and outrage. In vivid and evocative prose and with a fine eye for detail Alagiah's viewpoint is spiked with the freshness of the young George on his arrival in Ghana, the wonder with which he recounts his first impressions of Africa and the affection with which he dresses his stories of his early family life. A sense of possibility lingers, even though the book is full of uncomfortable truths. It is a book neatly balanced on his integrity and sense of obligation in his role as a writer and reporter. The shock of recognition is always there, but it is the personal element that gives A PASSAGE TO AFRICA its originality. Africa becomes not only a group of nations or a vast continent, but an epic of individual pride and suffering.
