OneFS 7.2.1 CLI Administration Guide . PDF. Published June, 2016. Configure, manage, and monitor EMC Isilon clusters through the OneFS command-line interface. OneFS commands extend the standard FreeBSD command set.

#### OneFS 7.2.1 CLI Administration Guide

yep, I setup virtual Isilon 8.2 and noticed that I was no longer able to map to SMB share using \\SSIP\sharename. While I know it's not best practice to connect to specific node IP, we did have a couple of use cases where we had to point applications to specific node IP and since SSIP will move during a node going offline event ...we would use that IP to ensure connectivity for CIFS clients ...
