How To Use Nikon flashes on Canon cameras** Off Camera Flash Set Up for Beginners | Step by Step TutorialNikon Flash GuideBuy any Nikon flash (Speedlight) made in the last 15 years with a TTL setting and it will work perfectly with any modern or old Nikon film camera. The only real difference between flashes is how far away you can get and still have enough light. Honest, all the other features are meaningless for practical photography.Nikon Flash Guide - Ken RockwellThe flash guide number (GN) is a measure of the distance at which the flash can illuminate a subject. The higher the guide number, the greater the distance at which the light from the flash is sufficient for optimal exposure. The formula for calculating the guide number is as follows: Guide number (GN)=distance (meters) x aperture (f-number)Flash Level (Guide Number) - Nikon | Imaging ProductsNikon Flash Guide: The De... has been added to your Cart Add to Cart.
