Robinson Crusoe is one of the most famous literary characters in history, and his story has spawned hundreds of retellings. Inspired by the life of Alexander Selkirk, a sailor who lived for several years on a Pacific island, the novel tells the story of Crusoe's survival after shipwreck on an island, interaction with the mainland's native inhabitants, and eventual rescue. Read variously as economic fable, religious allegory, or imperialist fantasy, Crusoe has never lost its appeal as one of the most compelling adventure stories of all time. In addition to an introduction and helpful notes, this Broadview Edition includes a wide range of appendices that situate Defoe's 1719 novel amidst castaway narratives, economic treatises, reports of cannibalism, explorations of solitude, and Defoe's own writings on slavery and the African trade. A final appendix presents images of Crusoe's rescue of Friday from a dozen of the most significant illustrated editions of the novel published between 1719 and 1920.

The Inner Game of Music, the breakout hit that became a standard primer in the music world, has taught thousands of musicians—professionals and amateurs alike—how to overcome self-consciousness and stage fright and to recapture a youthful, almost effortless capacity to learn. Now, in his follow-up book, *The Mastery of Music*, Barry Green turns his expert hand to the artistic qualities that make an extraordinary musician. Culling advice from dozens of interviews with legends including Joshua Bell, Dave Brubeck, Jeffrey Kahane, Bobby McFerrin, Christopher Parkening, Doc Severinsen, Frederica von Stade, the Harlem Boys Choir, and the Turtle Island String Quartet, he reveals that it's not enough to have a cerebral and emotional connection to the notes. Green shows how musical excellence, exhibited by true virtuosos, requires a mastery of ten unique qualities of the soul and the human spirit, such as confidence, passion, discipline, creativity, and relaxed concentration, and he discusses specific ways in which all musicians, composers, and conductors can take their skills to higher levels. He carefully incorporates all instruments and techniques in his rejuvenating discussions, inspiring the stifled student to have fun again and the over-rehearsed performer to rediscover the joy of passionate expression. Essential reading for every musician, *The Mastery of Music* strikes a beautiful new chord.

Composed in 2 B.C., as "The I Ching revised and enlarged," *The Elemental Changes* is a divination manual providing a clear method for distinguishing alternative courses of action. Structured in 81 tetragrams (as opposed to the 64 hexagrams of the I Ching), the book offers much to the modern reader. Today in the West, *The Elemental Changes* is an essential tool for understanding the Tao as it operates in the Cosmos, in the minds of sages, and in sacred texts. It is also one of the great philosophical poems in world literature, assessing the rival claims on human attention of fame,

physical immortality, wealth, and power while it situates human endeavor within the larger framework of cosmic energies. The complete text of *The Elemental Changes* and its ten autocommentaries are here translated into accessible and, whenever possible, literal English. Following the Chinese tradition, supplementary comments are appended to each tetragram in order to indicate the main lines of interpretation suggested by earlier commentators.

Starting with a brief introduction to reactive programming concepts, there is an overview of Observables and Observers, the core components of RxJava, and how to combine different streams of data and events together. You will also learn simpler ways to achieve concurrency and remain highly performant, with no need for synchronization. Later on, we will leverage backpressure and other strategies to cope with rapidly-producing sources

This brief covers the unique crime group of Outlaw Motorcycle Gangs. Outlaw Motorcycle Gangs are adult criminal associations composed of "bikers" living a deviant lifestyle that includes individual, group, and club criminal behavior. These groups are sometimes called one percenters, due to the American Motorcycle Association statement that ninety-nine percent of motorcyclists are law abiding citizens. While many may be familiar with the reputation of the Hells' Angels, many may not realize the wide network of other Outlaw Motorcycle Gangs or the extent of their involvement in criminal activities. The brief includes a breakdown of the criminal networks and activities of these groups, which operate similarly to an organized crime group. It also covers the evolution of motorcycle clubs to motorcycle gangs. It examines the recent trend of American-based motorcycle gangs into international organized crime activities. This book will be of interest to researcher studying criminology, particularly organized crime and criminal networks, as well as international and comparative law and public policy.

From New York Times bestselling author Sabrina Jeffries, the deliciously sexy fourth book in the "Duke's Men" Regency romance series—the first of which was called "a totally engaging, adventurous love story" (RT Book Reviews, Top Pick). The heir presumptive to the Viscount Rathmoor, Dominick Manton once had his heart's desire within reach—a bright future as a barrister and engagement to Jane Vernon, a wealthy baron's daughter. Then a shattering betrayal by his vindictive brother George snatched away Dom's inheritance and his hopes of offering Jane a secure future. Brokenhearted, and attempting to end their engagement without destroying Jane's reputation, Dom staged a betrayal of his own to convince her that he's not the husband-to-be that she thought. Now George is gone and the viscountcy restored to Dom, since his brother's widow, Nancy—Jane's cousin and closest confidant—never bore an heir. But when Nancy goes missing, a panicked Jane calls on her former fiancé to track down her cousin. Dom knows the mistakes of the past may be unforgivable—but now, entangled together in mystery and danger, will they rekindle a passionate longing that was never lost to begin with?

Written as a technology guide for students, practitioners, and administrators, the focus of this book is on introducing current and future trends in library technology and automation within the larger context of strategic and systems planning, implementation, and continuous improvement. Technology is an essential resource for attaining both organizational and patron goals, and planning needs to emphasize the alignment between the clearly defined goals of each. For this alignment to occur on a consistent basis goals must be designed, or engineered, in a systematic fashion where technology fulfils the need to deliver the desired outcomes in an efficient, cost-effective manner. The concept of usability engineering is also examined, where the technology is planned, designed, and implemented in such a way as to maximize utility and ease-of-use for users and employees. Readers of this book will understand both the why and the how of library technology, planning, and implementation articulated in a simple,

easy-to-understand fashion. Delivered from academic, public, and school library media perspectives Current and emerging technologies are discussed along with their current and future application in the field of library and information science Technology planning and integration is explained using a systems design process with scenarios and case studies that are articulated in a step-wise, holistic fashion

It's not often that someone stumbles into entrepreneurship and ends up reviving a community and starting a national economic-reform movement. But that's what happened when, in 1983, Judy Wicks founded the White Dog Café on the first floor of her house on a row of Victorian brownstones in West Philadelphia. After helping to save her block from demolition, Judy grew what began as a tiny muffin shop into a 200-seat restaurant—one of the first to feature local, organic, and humane food. The restaurant blossomed into a regional hub for community, and a national powerhouse for modeling socially responsible business. Good Morning, Beautiful Business is a memoir about the evolution of an entrepreneur who would not only change her neighborhood, but would also change her world—helping communities far and wide create local living economies that value people and place as much as commerce and that make communities not just interesting and diverse and prosperous, but also resilient. Wicks recounts a girlhood coming of age in the sixties, a stint working in an Alaska Eskimo village in the seventies, her experience cofounding the first Free People store, her accidental entry into the world of restaurantering, the emergence of the celebrated White Dog Café, and her eventual role as an international leader and speaker in the local-living-economies movement. Her memoir traces the roots of her career - exploring what it takes to marry social change and commerce, and do business differently. Passionate, fun, and inspirational, Good Morning, Beautiful Business explores the way women, and men, can follow both mind and heart, do what's right, and do well by doing good.

a youthful, almost effortless capacity to learn. Now, in his follow-up book, *The Mastery of Music*, Barry Green turns his expert hand to the artistic qualities that make an extraordinary musician. Culling advice from dozens of interviews with legends including Joshua Bell, Dave Brubeck, Jeffrey Kahane, Bobby McFerrin, Christopher Parkening, Doc Severinsen, Frederica von Stade, the Harlem Boys Choir, and the Turtle Island String Quartet, he reveals that it's not enough to have a cerebral and emotional connection to the notes. Green shows how musical excellence, exhibited by true virtuosos, requires a mastery of ten unique qualities of the soul and the human spirit, such as confidence, passion, discipline, creativity, and relaxed concentration, and he discusses specific ways in which all musicians, composers, and conductors can take their skills to higher levels. He carefully incorporates all instruments and techniques in his rejuvenating discussions, inspiring the stifled student to have fun again and the over-rehearsed performer to rediscover the joy of passionate expression. Essential reading for every musician, *The Mastery of Music* strikes a beautiful new chord.

Good Morning, Beautiful Business: The Unexpected Journey of an Activist Entrepreneur and Local-Economy Pioneer Chelsea Green Publishing It's not often that someone stumbles into entrepreneurship and ends up reviving a community and starting a national economic-reform movement. But that's what happened when, in 1983, Judy Wicks founded the White Dog Café on the first floor of her house on a row of Victorian brownstones in West Philadelphia. After helping to save her block from demolition, Judy grew what began as a tiny muffin shop into a 200-seat restaurant—one of the first to feature local, organic, and humane food. The restaurant blossomed into a regional hub for community, and a national powerhouse for modeling socially responsible business. *Good Morning, Beautiful Business* is a memoir about the evolution of an entrepreneur who would not only change her neighborhood, but would also change her world—helping communities far and wide create local living economies that value people and place as much as commerce and that make communities not just interesting and diverse and prosperous, but also resilient. Wicks recounts a girlhood coming of age in the sixties, a stint working in an Alaska Eskimo village in the seventies, her experience cofounding the first Free People store, her accidental entry into the world of restaurantering, the emergence of the celebrated White Dog Café, and her eventual role as an international leader and speaker in the local-living-economies movement. Her memoir traces the roots of her career - exploring what it takes to marry social change and commerce, and do business differently. Passionate, fun, and inspirational, *Good Morning, Beautiful Business* explores the way women, and men, can follow both mind and heart, do what's right, and do well by doing good.

A Ride On the Wild Side The last place Catherine MacPherson ever expected to find herself was sitting on a Greyhound bus, handcuffed to a surly bounty hunter, with only a suitcase of her twin sister's flashy, shrink-wrap clothing to wear! Just two hours ago, the respectable schoolteacher was sitting quietly at home when this bi-macho hunk crashed through her door, mistook her for her errant Miami showgirl sister, and hauled her off in his strong arms. And no matter how sexy he is, she's furious! Twins-ha! Sam McKade's the last person to ever fall for that line. He's finally got the gorgeous, leggy redhead just where he wants her—and no matter what outrageous tricks she pulls, he's not letting her get away. The problem is, she's a lot smarter—and sweeter—than he'd expected. And he's got this deep-buried tenderness she hadn't expected. And their kisses are so hot, they just might burn up ... before they sort it all out.

Outlaw Motorcycle Gangs as Organized Crime Groups Springer This brief covers the unique crime group of Outlaw Motorcycle Gangs. Outlaw Motorcycle Gangs are adult criminal associations composed of "bikers" living a deviant lifestyle that includes individual, group, and club criminal behavior. These groups are sometimes called one percenters, due to the American Motorcycle Association statement that ninety-nine percent of motorcyclists are law abiding citizens. While many may be familiar with the reputation of the Hells' Angels, many may not realize the wide network of other Outlaw Motorcycle Gangs or the extent of their involvement in criminal activities.

The brief includes a breakdown of the criminal networks and activities of these groups, which operate similarly to an organized crime group. It also covers the evolution of motorcycle clubs to motorcycle gangs. It examines the recent trend of American-based motorcycle gangs into international organized crime activities. This book will be of interest to researcher studying criminology, particularly organized crime and criminal networks, as well as international and comparative law and public policy.
