BPEL Transaction behaviour for a Synchronous Webservice call Raj_K mentioned BPEL 1 month ago Recently I came across an issue in the Oracle community site related to behaviour of transactions in BPEL component.

Contributor: Oracle BPEL Process Manager development, product management, and quality assurance teams The Programs (which include both the software and documentation) contain proprietary information; they are provided under a license agreement containing restrictions on use and disclosure and are also protected

1 Reply Latest reply on Aug 23, 2010 9:42 AM by James Taylor-Oracle . BPEL Process Manager License for Developer - Question. Stevo-6112 Aug 19, 2010 2:50 PM My company is licensed for BPEL PM and has it on several servers. I am a developer creating programs for my company for which I am an employee...not a contractor.

Oracle BPEL Process Manager can also be integrated with Oracle Business Activity Monitoring, Oracle Application Server Portal, Oracle Workflow, Oracle Application Server Integration B2B, and Oracle Application Server Integration InterConnect.

Custom applications coded with the Oracle BPEL Process Manager 10.1.3 Client Java API cannot currently be upgraded to the 1 1g Release 1 PS2 Client Java API. Programs coded to the Oracle BPEL Process Manager 10.1.3 API must be rewritten.

Select a template based on the type of BPEL process service component you want to design. A template provides a basic set of default files in the Application Navigator (process_name .wsdl, process_name .bpel, and process_name .componentType) with which to begin designing your BPEL process service component.

In order to deploy BPEL projects using Oracle JDeveloper in clustered Oracle BPEL Process Manager environments, you must create a dummy application server connection with the correct host name (corresponding to the load balancer) and an integration server connection based on this application server connection.

Contributor: Oracle BPEL Process Manager development, product management, and quality assurance teams The Programs (which include both the software and documentation) contain proprietary information; they are provided under a license agreement containing restrictions on use and disclosure and are also protected by copyright, patent, and other intellectual and industrial property laws. Oracle BPEL Process Manager for Developers provides a design and standalone test environment. With this scenario, you design your process and then perform preproduction deployment and testing. Once you are ready to deploy a production version, you use the OracleAS Middle Tier scenario to deploy the BPEL process.

I've already downloaded and installed the Oracle Bpel process manager server .but Bpel Console is not activated.I can't select the default in Console for domain.Drop down menu is not working.Also obant command doesn't work.How can I activate it.I kindly request you that please reply me soon.
