As a new physician, you face numerous questions: How do you decide what type of medicine to practice? How should you prepare for your residency interview? Where do you want to settle after your training? Dr. Rashed Hasan, a pediatrician, knows that it's not always easy to answer that question. He offers advice that can help you decide what's right for you, answering the questions above and also providing insights on determining the right time to buy a home; negotiating contracts with hospitals; building a sound financial life; deciding whether to open your own practice or join a group; and navigating the tax code to maximize earnings. He includes practical information for new and established physicians on a variety of topics, such as improving leadership skills, maintaining health, responding to malpractice claims, and preparing for retirement. Hasan also explores the ramifications of recent changes to the health care system, including the Affordable Care Act. While it isn't perfect, the medical profession can be everything you dreamed it would be when you learn how to build your future today.

What does it take to match into the specialty of your choice? This question is hotly debated and surveys of applicants and program directors find sharp divisions on the topic. In a recent survey, the authors concluded that "there are significant differences between program directors' and medical students' perceptions of which factors are important in the residency selection process" (Brandenburg 2005). In advising students over the years, we have come to realize that misperceptions abound, with applicants frequently overestimating or underestimating certain residency selection criteria. These misperceptions may result in a failure to match. From our own experiences as students, and in the process of counseling applicants, we know how difficult, anxiety-provoking, and mysterious the residency selection process is. In this book, we answer the question of what it takes to match successfully. We provide specific evidence-based advice to maximize your chances of a successful match. Who actually chooses the residents? We review the data on the decision makers. What do these decision makers care about? We review the data on the criteria that matter to them. How can you convince them that you would be the right resident for their program? We provide concrete, practical recommendations based on this data. At every step of the process, our recommendations are meant to maximize the impact of your application. Utilizing a unique combination of evidence-based advice and an insiders' perspective, this book will help you achieve your ultimate goal: The Successful Match.

Residency positions are increasingly harder to secure. ASHP's Get the Residency: ASHP's Guide to Residency Interviews and Preparation, Second Edition will help you stand out in a competitive field. Inside you will find first-hand advice, interview guidance, warnings, and answers to your questions, including: When do I start planning my residency strategy—and how? How can I set up a timeline and task list to keep myself on target for success? How can I ace the interview process? What should I have in my portfolio? What happens if I don't make the match? The authors of Get the Residency, Second Edition, have almost a decade-long track record of proven results for thousands of students: an 80% residency acceptance rate, against the national average of 65%. And they, along with faculty and clinicians across the country, share their effective techniques with you in this updated edition. Let their experience and understanding of the process guide you through each step toward your professional future.

Political satire as deeper truth: Donald Trump's presidential memoir, as recorded by two world-renowned Trump scholars, and experts on greatness generally "I have the best words, beautiful words, as everybody has been talking and talking about for a long time. Also? The best sentences and, what do you call them, paragraphs. My previous books were great and sold extremely, unbelievably well—even the ones by dishonest, disgusting so-called journalists. But those writers didn't understand Trump, because quite frankly they were major losers. People say if you want it done right you have to do it yourself, even when 'it' is a 'memoir.' So every word of this book was written by me, using a special advanced word processing system during the many, many nights I've been forced to stay alone in the White House—only me, just me, trust me, nobody helped. And it's all 100% true, so true—people are already saying it may be the truest book ever published. Enjoy." Until Donald Trump publishes the ultimate account of his entire four or eight or one-and-a-half years in the White House, the definitive chronicle will be You Can't Spell America Without Me: The Really Tremendous Inside

Story of My Fantastic First Year As President. Trump was elected because he was the most frank presidential candidate in history, a man eager to tell the unvarnished truth about others' flaws and tout his own amazing excellence. Now he levels his refreshingly compulsive, un-PC candor at his landslide election victory as well as his role as commander-in-chief and leader of the free world. There are intimate, powerful, mind-boggling revelations on every page. You are there with him during his private encounters with world leaders, a few of whom he does not insult. You are there at the genius Oval Office strategy sessions with his advisers. You are there in his White House bedroom as he crafts the pre-dawn Twitter pronouncements that rock the world. And, of course, you are there on the golf course as Trump attempts to manage the burdens of his office. President Trump explains each of the historic decisions that have already made America great again, and how he always triumphs over the fake news media. You'll learn what he really thinks of his cabinet members and top aides not related to him, of the First Lady and the First Daughter and the additional three or four Trump children. Included at no extra charge is a lavish and exclusive portfolio of spectacular, historic and intimate color photographs of President Trump in private – inside the White House, inside Mar-a-Lago, at Trump Tower, and more. You Can't Spell America Without Me is presented by America's foremost Trump scholar Kurt Andersen as well as America's foremost mediocre Trump impersonator, Alec Baldwin. You Can't Spell America Without Me is the perfect holiday gift!

This unique, socially conscience reference provides valuable guidance to international medical graduates (IMG's) looking to complete a residency in the United States. The medical residency application process in the United States is competitive and complex. Additionally, many IMG's go through training programs that sharply differ from the medical school training and the sociocultural elements of United States medicine and residency are unlike any other country. Organized into three parts, this book meets the need for a pragmatic, evidence based guide that answers important questions, and imparts indispensable advice to IMGs. Part I directly tackles the concerns IMG's have regarding specific elements of residency applications, including the importance of a master's degree and how to get a strong letter of recommendation. Part II then addresses how to prepare for interviews, preliminary programs and travel. Finally, the book answers the common "what ifs" and "what's next" questions many IMG's ponder. International Medical Graduate and the United States Medical Residency Application: A Guide to Achieving Success is a first-of-its-kind resource that presents a holistic view of residency application peppered with real life examples, easy to grasp tables and flow charts and key do's and don'ts to drive home the complex process involved in residency application.

Thousands of international medical graduates come to the United States to start their career as physicians. Many of them, however, are not aware of the challenges and problems that they may encounter along the way. These difficulties can range from the language and cultural barriers to a lack of confidence and self-esteem. Many students are also unaware of the other career options besides getting into a clinical residency program. As a result of these issues, a great number of foreign medical students remain unmatched into the National Resident Matching Program. Not matching can be devastating for these graduates, both financially and medically. Students often suffer from psychological effects like major depression and generalized anxiety disorder. This book outlines the potential problems faced by these graduates and their possible solutions. Each chapter collects research evidence, interviews and surveys to gather information to work on each possible problem one by one and describes a solution in great detail. Comprised of thirty chapters, each chapter is broken down into smaller sub-sections to investigate the main theme in depth. Issues addressed include the different types of international medical graduates and their lives in the United States, differences in the education system and healthcare system, the triangle of residency, language and cultural barriers, lack of professional contacts, confidence, self-image and self-esteem issues, and restriction to specific fields and career paths. Written by experts in the field, *International Medical Graduates in the United States* is a first of its kind text that addresses the biggest issues faced by foreign medical graduates in today's world.

There are nearly 24,000 ophthalmologists in the United States, with 500 physicians newly entering the ophthalmology field each year and approximately half of those being women. Although women now represent approximately half of all ophthalmologists, gender disparities remain when it comes to certain subspecialties (e.g., surgical retina), leadership roles (e.g., department chairs), industry involvement (e.g., consultancy and advisory board positions), and even academic publications. There has been a recently heightened interest in female representation in this field which has manifested in several ways (e.g., conferences geared towards women in ophthalmology, non-peer-reviewed publications about women in ophthalmology, and mentorship programs specifically for women). This book is the first of its kind in procuring and disseminating information—pertaining to both career and life—in an organized, concrete, and enduring way. *Women in Ophthalmology* is a comprehensive collection of chapters primarily written by women in the field of ophthalmology. The book aims to guide others through milestones and challenges women may face during their careers, and

shares sound insights into how to deal with unique issues both inside and outside the workplace. Topics that are widely applicable to all who work in ophthalmology are included, such as finding mentors, collaborating within industry, handling work-life balance, and seeking out leadership opportunities. Each chapter combines personal anecdotes with knowledge from leaders in the field which both men and women will find highly valuable.

Integrating a unique conceptual- and skills-based approach, **HELPING PROCESS: ASSESSMENT TO TERMINATION** presents the methodology of the help-

ing process as it is practiced in the human service field. The strong applied approach of this worktext includes an innovative content chapter/skill chapter format. Skills/techniques are introduced in an overview chapter, which is followed by a chapter that provides case examples and worksheets enabling students to put what they learn into practice. Five chapters focus on the application of skills necessary for assessing, intake interviewing, planning, building a case file, implementing, and terminating work with clients. HELPING PROCESS is thoroughly grounded in strength-based helping. Featuring a multicultural emphasis throughout, it details the helping process using quotes, in-depth case studies, vignettes, and examples from front-line service providers such as counselors, case managers, and social workers to illustrate and reinforce key concepts. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

There has been a sea-change in dermatology in the last three decades. Managed care, electronic records and communication, cosmetic dermatology, direct-to-consumer advertising, core competencies, and conflicts of interest were either nascent concepts or not even on the horizon as recently as the mid-1980s. The public, accrediting organizations, and physicians themselves recognize the need for training resources in dermatology ethics and professionalism. There is a need to address these topics in a format that will stimulate dialogue and reflection.

The popular optics review manual, Last-Minute Optics, has been revised and updated into a second edition. This unique resource boils down the overwhelming subject matter of clinical optics and refraction, helping the ophthalmologist cover the essentials in a single review manual. The content is based upon the practical experience of two clinically active experts who lecture on ophthalmic optics around the world.

The classic work on the evaluation of city form. What does the city's form actually mean to the people who live there? What can the city planner do to make the city's image more vivid and memorable to the city dweller? To answer these questions, Mr. Lynch, supported by studies of Los Angeles, Boston, and Jersey City, formulates a new criterion—imageability—and shows its potential value as a guide for the building and rebuilding of cities. The wide scope of this study leads to an original and vital method for the evaluation of city form. The architect, the planner, and certainly the city dweller will all want to read this book.

Roadmap to Postgraduate Training in Pharmacy provides the information and expertise pharmacy students need to make confident, informed decisions regarding residency programs, fellowships, and additional degrees

The ultimate survival guide for medical students, interns, residents, and fellows, Staying Human during Residency Training provides time-tested advice and the latest information on every aspect of a resident's life - from choosing a residency program, to coping with stress, enhancing self-care, and protecting personal and professional relationships. Allan D. Peterkin, MD, provides hundreds of tips on how to cope with sleep deprivation, time pressures, and ethical and legal issues. This sixth edition is not only updated to reflect the latest research and resources, but also features new material on the latest issues in residency training, including social media use, patient-centred care, the medical humanities, and the "hidden curriculum" of residency. Presenting practical antidotes to cynicism, careerism, and burnout, Peterkin also offers guidance on fostering more empathic connection with patients and deepening relationships with colleagues, friends, and family. Acknowledged by thousands of doctors across North America as an invaluable resource, Staying Human during Residency Training has helped to shape notions of trainee well-being for medical educators worldwide. Offering wise, compassionate, and professional counsel, this new edition again shows why it is required reading for medical students and new physicians pursuing postgraduate training.

Residency is a defining period in a physician's life because it is the decisive stage for personal growth, intellectual challenge and emotional stress. It is a major transitional period transforming a medical student into a practice-ready physician. This role-change for the physician-in-training usually takes place in a new setting and necessitates coping with conflicting demands, heavy responsibility and long work hours. Adding to the residents' burden is the ongoing need to manage their financial, social and work demands. This manual was designed to help medical students on this final critical segment of their journey to become practicing physicians. It will enhance the students' awareness of the potential obstacles along the way and provide them with guidance on how to avoid them. The book includes: selecting an appropriate specialty, maximizing the chances of being selected, surviving residency and beginning practice.

This indispensable resource from a noted physician who has spent years advising students and selecting residents gives students all they need to know to successfully match in a residency program in 2000 and beyond. It is the only guide to fully cover the electronic application and match process, complete with lots of screen shots. The manual also addresses questions students should ask and strategies for successful matching.
