VZ-58: Steel Case Ammo Issues 7.62×39 and 7.62x54R are famous or infamous for using steel cased ammunition. There is fierce debate as to whether or not there is damage done to a firearm shot on a constant diet of steel cased ammunition. To me primary downside of steel cased ammo is that it is not reloadable. The five USA made parts on the vz. 58 Tactical 762 model rifle are: disconnecter, (manufactured from 4140 steel), polymer follower, polymer floor plate, M4 adjustable stock, and removable muzzle brake. The M4 stock is the Tapco Mil-Spec AR T6 six position stock with Tapco Mil-Spec extension tube. This is not the commercial model stock assembly.

CZ-USA VZ 58 - Rifle Shooter

It was in 1958 that the Czechs released their newest assault rifle, the vz. 58 — short for 7.62 samopal vzor 58. This literally translates to "7.62mm submachine gun model 1958." The new gun was intended to replace vz. 52 rifles as well as several submachine guns in Czech service.

With the rising interest in military-style rifles, it's no wonder that over the past few years the availability of such guns--from both here and abroad--has been on the increase. One such rifle that is catching the eye of many is the Czech SA vz. 58 service rifle, which with modifications CZ-USA is bringing into this country as the VZ 58.
