**How to Design a Sensory Garden | Garden Guides**

While these gardens are ideal for the enjoyment of the visually impaired, the emphasis on all five senses creates a richer experi-

ence for every visitor. Sensory gardens can be built from the ground up, or new elements can be added to an existing garden. Start with a few treats for the eyes: bright flowers, bold foliage and interesting shapes.

Descriptive listings of gardens and arboretums to visit in Colorado. Betty Ford Alpine Gardens: 183 Gore Creek Drive, Ford Park, Vail, CO 81657 (970)476-0103.. At an altitude of 8,200 feet, this striking garden is one of the highest gardens in North America and, of course, specializes in plants that will grow and thrive at high altitude.

## **Sensory Gardens Thrive**

### **Sensory Gardens for Kids with Sensory Processing Issues**

The sensory garden is part of the charity's aim to build the emotional resilience of primary school children in the Doncaster area. Helen, from Help Me, I'm Fine, believes that supporting the emotional health of children in primary school will give them the tools they may need as teenagers to cope with life's ups and downs, ultimately reducing the likelihood of other teenagers taking their own lives.

Thrive has developed a specific way of working with children that supports their social and emotional wellbeing. It draws on neuroscience and attachment theory and has created a systematic approach to the early identification of emotional and social developmental needs in children.

### **Plants for a Sensory Garden | Garden Guides**

#### **Designing A Sensory Garden | Gardening in the Panhandle**

A sensory garden appeals to all five senses. These specialized gardens can

be designed for children, for hospitals and for therapy purposes. These gardens can especially appeal to those who don't possess all five senses. Users are encouraged to interact with the plants, feeling the touch plants and nibbling on a leaf in the taste portion.

#### **'Help Me, I'm Fine' chosen as Thrive's charity of the year**

Often sensory processing issues affect more than the body, it also affects our emotions and how we see ourselves. We specialize in helping kids with SPD thrive. Is your child sensitive to light, sounds, clothes with tags or itchy clothes? Does your child spin around in circles at home or on swings? Does he bump into walls, chairs and/or people ...
