Service engine soon light 4 Answers. Service engine soon came on in 2003 Ford Expedition, Had the computer read, got the code and changed the appropriate

part(s) but the light won't go off. Mechanic keeps telling me it will reset itself ...

Check engine light comes on when gas cap is loose or completely missing, spark plugs or plug wires are damaged, vehicle has a bad catalytic converter, oxygen sensor needs to be replaced. The appearance of a check engine light should not be neglected and reason behind such signs must be identified and fixed so that it couldn't lead to any major problem in the future.

A Ford service professional can read the code causing your check engine light to turn on and pinpoint the problem. It's always best to do this quickly to avoid erasing the code, which makes it much more difficult to figure out the issue.
