Structure of Decision

The Cognitive Self: The Self-Concept - Principles of ...

This book outlines a new approach to the analysis of decision making based on "cognitive maps." A cognitive map is a graphic representation intended to capture the structure of a decision maker's ... The quality of any decision is a direct result of the quality of the effort that goes into making a decision, as well as the quality of the effort that goes into executing that decision. In other words, the anatomy of a decision is not only the sum of its parts, the skeleton that gives it structure, and the course of action, strategy or choice that it represents.

A cognitive map is a graphic representation intended to capture the structure of a decision maker's stated beliefs about a particular problem. Following introductory chapters that develop the theory and techniques of cognitive mapping, a set of five empirical studies applies these new techniques to five policy areas.

Empirical studies of cognitive maps --Decision for neoimperialism : the deliberations of the British Eastern Committee in 1918 / Robert Axelrod --Complexity and the presidency : Gouverneur Morris in the Constitutional Convention / Stuart Ross --Explanation of the unexpected : the Syrian intervention in Jordan in 1970 / G. Matthew Bonham and Michael J. Shapiro --Strategy for the energy crisis ...
