"An excellent introduction to graphic design through [the author's] own excellent work. Anyone interested in the subject, including most practitioners, will find it delightful."—Milton Glaser  
Kids love to express themselves, and are designers by nature—whether making posters for school, deciding what to hang in their rooms, or creating personalized notebook covers. Go, by the award-winning graphic designer Chip Kidd, is a stunning introduction to the ways in which a designer communicates his or her ideas to the world. It's written and designed just for those curious kids, not to mention their savvy parents, who want to learn the secret of how to make things dynamic and interesting. Chip Kidd is "the closest thing to a rock star" in the design world (USA Today), and in Go he explains not just the elements of design, including form, line, color, scale, typography, and more, but most important, how to use those elements in creative ways. Like putting the word "go" on a stop sign, Go is all about shaking things up—and kids will love its playful spirit and belief that the world looks better when you look at it differently. He writes about scale: When a picture looks good small, don't stop there—see how it looks when it's really small. Or really big. He explains the difference between vertical lines and horizontal lines. The effect of cropping a picture to make it beautiful—or, cropping it even more to make it mysterious and compelling. How different colors signify different moods. The art of typography, including serifs and sans serifs, kerning and leading. The book ends with ten projects, including an invitation to share your designs at GoTheBook.com.

This book is the first-ever authoritative work on the use and management of humor in the workplace. It is a practical guide for everyone involved: the humorists ('jokers'), the targets (sometimes 'victims'), the observers ('audience') and most of all the managers who have to 'set the tone' and encourage, control and manage humor. Humor is part and parcel of every workplace. However, while it usually demonstrates and fosters a united, happy workforce, it can at times be deeply damaging and divisive. The authors - academics with vast organizational experience and a research-based understanding of humor at work - bring together state-of-the art knowledge of the topic, making it fun, accessible and readable for all humor participants. The topics include how humor works, humor cultures in organizations, the many forms of workplace humor and their pros and cons, humor rituals at work, digital humor, workplace jokers, the 21st century issue of 'political correctness', and both the 'bright side' of humor (assisting positive cultures, making work 'fun'), and its 'dark side' (where humor offends and humiliates). With over 60 'real life' illustrative stories of workplace humor, a self-completion questionnaire to

measure the Humor Climate in your organization, end-of-chapter 'takeaways' and an end-of-book summary advocating 'best practice', the book is a 'fun', how-to-do-it guide that will both inform and entertain.

Compiled from reports published in 1881 when France held special celebrations to honor Victor Hugo on his 80th birthday. The 27th of December, 1880, was a fête day at Besançon. The houses in the picturesque old town, which dates further back than the Roman conquest, were hung with flags, and the echoes of music came back from the surrounding hills. On the banks of the river, in the streets, and in the squares, a well-dressed crowd was awaiting a ceremonial of honor. One name was upon every lip -- that name was Victor Hugo. The object in the following pages, which are dedicated to Victor Hugo and his century (for the century must ever be associated with his name), to testify our admiration for a man whose every action commands our respect; for the writer who has infused new life into the antiquated diction of our language; for the poet whose verses purify while they fascinate the soul; for the dramatist whose plays exhibit his sympathy with the unrenowned classes; for the historian who has branded with ignominy the tyranny of oppressors; for the satirist who has avenged the outrages of conscience; for the orator who had defended every noble and righteous cause; for the exile who has stood up undaunted to vindicate justice; and finally for the master-mind whose genius has shed a halo of glory over France. Victor Hugo (1802-85) was a French poet, novelist, and playwright, whose voluminous works provided the single greatest impetus to the Romantic Movement. Hugo was France's favorite son, but more than that, for years he had been her champion, her conscience and her spirit. The most abiding picture of Hugo is that of the exile: the "Guernsey Tribunal" dispensing judgement and truth across Europe, his patriarchal image enhanced by the beard he grew to protect his weak throat. It is true that he had the vices of his virtues: he was proud, egocentric, sometimes mean, and often unfaithful. But he was a great man, recognized as such and loved as such by his countrymen.

Harriet Beecher Stowe (1811 - 1896) was an American abolitionist and a writer. She is best known for her novel "Uncle Tom's Cabin," which depicts the harsh conditions for enslaved African Americans. Following its remarkable success, the author made three tours to England and Europe, which inspired the two-volume set, "Sunny Memories in Foreign Lands." Both volumes are a series of letters, some written on the spot - some after the author's return home - of impressions as they arose, of her most agreeable visits

to England, France, Switzerland, Germany, and Belgium during the first half of the nineteenth century.

This book is a study of the "Great Movies," that fluid category of feature films deemed by various authorities—film societies, critics, academics, and movie enthusiasts—to be the enduring and memorable works of cinematic history. But what are they about? In *Wit's End*, the author attempts to "make sense" of these films in order to understand their greatness in the context of their relation to other films and to the worlds they come from and recreate on screen. To that end, we employ the conceptual power of pragmatic social theory and the rich idea of aesthesis to explore and arrange these films as a means of understanding what they express about the universality of human life in our keen use of wit, organization of social wont, and direction of cultural way. It is hoped that such an inquiry will illuminate the glory of the great films and contribute to the advance of film studies.

Have you ever wondered what a guide dog does? How do they know to lead a blind owner? Can they understand traffic lights? Most importantly, how does the owner know where to pick up the poop? This memoir answers these questions—and more. It tells what guide dogs are supposed to do. They're smart, loyal and well-trained—but not all dogs are created alike. Musket is proof of that. He's definitely got a thing for treats and belly rubs. For the first time, the dog has his say. (Of course he needed a little help with the typing, since he doesn't have opposable thumbs. That's where author Mark Carlson came in. Still, Musket is the brains of the outfit.) Mark and Musket tell their story with humor, emotion, and Musket's occasional contradictions. And at the end of the day, Musket somehow manages to be a great guide dog too. *Confessions of a Guide Dog* was written so a wonderful, devoted dog could reach out to those who haven't been lucky enough to meet him. He'll make you smile, laugh, cry, and want to give him treats. This is their story. (And they're sticking to it.)

American preacher Deane Omo flies into the Wellington mission of his family's Charismatic church to heal the sick, and to bring his cousin Mayhew Quitman back into the fold. In a flat high above the city Kath and Martin play out the difficult early months of their relationship. And at the National Museum Frances Kirby, ailing and nearing retirement, receives in the mail a black disc with mysterious properties. *Treasure* is an audacious novel in which unlikely worlds collide. In settings as various as the Museum's Beetle Room, a downtown funeral parlour, and the Christian settlement of White Steppes, North Carolina, Elizabeth Knox brings to sensuous life a group of hypnotically real characters, then draws them together in the White Steppes Bethesda's big New Zealand production: *The Miracle Healing Rally*.

A revolutionary philosophy for rookie and veteran travelers alike, Rediscovering Travel "gets to the heart of why we travel" (Matt Kepnes, "Nomadic Matt"). Having captivated millions during his tenure as the New York Times's "Frugal Traveler," Seth Kugel is one of our most internationally beloved travel writers. With the ini- tial publication of Rediscovering Travel, he took the corporate modern travel industry to task, determined to reignite an age- old sense of adventure that has virtually been vanquished by the spontaneity- obliterating likes of Google Maps, TripAdvisor, and Starwood points. Now in travel- friendly paperback, this "funny, in- spiring and well- crafted" companion (Associated Press) reveals

how to make the most of new apps and other digital technologies without being shackled to them. Writing for the tight-belted tourists and the first-class flyer, the eager student and the comfort-seeking retiree, Kugel shows all readers “not only where to look, but how” (Samantha Brown), and promises that we too can rediscover the joy of discovery. “Travel is not about the destination but the experience. . . . That’s what makes [it] so appealing, so addictive, and that’s what makes Rediscovering Travel so necessary.” — Peter Greenberg

Madan Sarup has now revised his accessible and popular introduction to post-structuralist and postmodern theory. A new introductory section discusses the meaning of such concepts as modernity, postmodernity, modernization, modernism, and postmodernism. A section on feminist criticism of Lacan and Foucault has been added, together with a new chapter on French feminist theory focusing on the work of Hélène Cixous, Luce Irigaray, and Julia Kristeva. The chapter on postmodernism has been significantly expanded to include a discussion of Lyotard's language games and his use of the category "sublime." This chapter ends with a discussion of the relationship between feminism and postmodernism. A further chapter has been added on the work of Jean Baudrillard, a cult figure on the current postmodernist scene, whose ideas have attained a wide currency. The chapter includes a new section on postmodern cultural practices as revealed in architecture, TV, video, and film. Suggestions for further reading are now listed at the end of each chapter and are upgraded and annotated. In tracing the impact of post-structuralist thought not only on literary criticism but on such disciplines as philosophy, psychoa-

nalysis, the social sciences, and art, this book will be essential reading for those who want a clear and incisive introduction to the theories that continue to have widespread influence.
