TL5N7D - MILA MIGUEL

The Namib is a broad expanse of hyper-arid gravel plains and dunes that stretches along Namibia's entire coastline. It varies between 100 km (60 miles) and many hundreds in width. Areas within the Namib include the Skeleton Coast and the Kaokoveld in the north and the extensive Namib Sand Sea along the central coast.

Covering an area of 31,274 sq. mi (81,000 sq. km), the Namib is a coastal desert, situated along the south-western coast of the African continent. Stretching over 1200mi (2000km), the Namib crosses Angola, Namibia and South Africa. Characterised by red sand dunes that can reach impressive heights, the Namib is considered to be particularly old, [...]
