of Building and ...

The Nature of Order: An Essay on the Art of Building and the Nature of the Universe is a four-volume work by the architect Christopher Alexander published in 2002–2004. In his earlier work, Alexander attempted to formulate the principles that lead to a good built environment as patterns, or recurring design solutions. However, he has come to believe that patterns themselves are not enough to generate life in buildings and cities, and that one needs a "morphogenetic" understanding of the ...
