The Pencil of Nature was the pinnacle of Fox Talbot's achievements as a photographer. For eleven years he struggled to create a process whereby he could creatively interpret and reveal the truth or 'reality' of his surroundings. The photographs in Pencil are proof of his success.

Published in six parts between 1844 and 1846, The Pencil of Nature was Talbot's way of introducing the world to the calotype photo process he had developed. Using 24 calotype prints, Talbot showed...
