Exploratory data analysis (EDA) is an important pillar of data science, a important step required to complete every project regardless of type of data you are working with. Exploratory analysis gives us a sense of what additional work should be performed to quantify and extract insights from our data. In...

The Czars were an American alternative rock band, formed in 1994 in Denver by John Grant and Chris Pearson. They released six studio albums, one EP, and three singles in the duration of their career. After the release of Goodbye in 2004, five of the six members of The Czars left the band over the span of nine months, leaving John Grant as the sole member of the band.

10 Titanic Conspiracy Theories To Distract You From The ...

Class appears to correlate with survival, let's demonstrate it with a Pearson's chi-squared test for goodness of fit!!!! I am picking this test because class is a categorical variable, so tests like t-tests are inappropriate here. The overall death rate for a passenger aboard the Titanic (class not considered) is 0.62. 549 / 891
