"Listen to This is designed to connect students' interest in the music on their own playlists with great music from throughout history and all over the world. It is based on the idea that all music is built on a combination of a few basic elements — melody, dynamics, rhythm, harmony, texture, timbre, form, and word-music relationships — and if students listen for those elements they can better understand how a piece of music works, no matter how unfamiliar it may seem at first. This elements-centered approach provides a strong foundation for learning about, and enjoying, many new musical styles. The Fourth Edition includes expanded coverage of timbre as well as new chapters on additional musical works. Included in this package, MyLab™ Music for the Music Appreciation course is an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results. MyLab Music also gives students access to the music and listening guides that accompany the text. Please note: this version of MyLab Music does not include an eText. Listen to This , Fourth Edition is also available via Revel™ , an interactive digital learning environment that replaces the print textbook, enabling students to read, practice, and study in one continuous experience. Revel is ideal for courses where student engagement and mobile access are important."--Publisher's description.

Emerson Robinette only leaves his apartment to get laid and go to work. Having MS—and trying to pretend he doesn't—makes everything more complicated, especially his fantasies of coming on strong and holding a guy down. Finding a partner who'll explore that with him isn't Emerson's idea of a realistic goal. Until a chance meeting with a hipster on a bus makes him reconsider. Obie is happy, open-hearted, and warm; what's more, he gets his kicks being physically dominated, spanked, and teased until he's begging. It would be perfect, except for one thing: Emerson isn't made for happiness, and he doesn't see how a guy like Obie would settle for a cynic like him. But as far as Obie's concerned, the only thing keeping them apart is Emerson. Can Emerson handle a boyfriend who's more invested in his future than he is? Emerson's barely convinced he has a future. But when Obie's smiling at him, anything seems possible.

Cameron Rheingold is the kind of guy who takes a book to a bar. He's a loner by nature, but he has to engage with the community to keep his movie theater business afloat. When two young men

stay after a Cary Grant film to chat, Cameron thinks he might have made some new friends—but their interest is more than friendly. Josh is charismatic, and every smile is a little bit seductive. Keith is sweet and kind, with a core of steel Cameron can sense even when Keith's on his knees. Cameron is willing to be the couple's kinky third, but that's it. He refuses to risk complicating things with his growing devotion, even if being with Josh and Keith feels more right than anything else ever has. When the three of them are attacked by the killer roaming La Vista, Cameron must decide what's more important: pretending the assault never happened and he's the same loner he used to be, or coming clean to Josh and Keith about how much he loves them, even if they can never return his feelings.

It is based on the idea that all music is built on a combination of a few basic elements — melody, dynamics, rhythm, harmony, texture, timbre, form, and word-music relationships — and if students listen for those elements they can better understand how a piece of music works, no matter how unfamiliar it may seem at first. This elements-centered approach provides a strong foundation for learning about, and enjoying, many new musical styles. The Fourth Edition includes expanded coverage of timbre as well as new chapters on additional musical works. Included in this package, MyLab™ Music for the Music Appreciation course is an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results. MyLab Music also gives students access to the music and listening guides that accompany the text. Please note: this version of MyLab Music does not include an eText. Listen to This , Fourth Edition is also available via Revel™, an interactive digital learning environment that replaces the print textbook, enabling students to read, practice, and study in one continuous experience. Revel is ideal for courses where student engagement and mobile access are important."--Publisher's description.
