Look no further! I will show you a small trick in Microsoft Word (2007 and above) to create a large test document with random text in less than 5 seconds, and then you can impress your colleague or your boss with this little secret trick. Insert Lorem Ip-

sum Text: 1. Launch Microsoft Word 2007 (or above) 2.

A document in our context is a product of work that can be stored and printed to make the result of the work a permanent resource. By model we mean data that forms the basis of a document and is organized in a manner that allows working with the data independently from their visual representation in a graphical user interface.

In many cases, the Test Plan and Test Protocol are combined into a separate document. The Test Plan outlines the testing requirements and strategy. It should include the general process for performing the testing, documenting evidence of testing and the process for handling testing failures.
